

HAVE LIVED ON FARM SINCE 1775

Smith Family Believed to Hold Record For Continuous Residence.

WILLIAM PENN SOLD IT Samuel Smith Original Purchaser Century And Half Ago. Five Generations Have Been Represented.

So far as can be determined the record for continuous residence on one Adams county farm belongs to the Smith family in Mount Joy township.

Since the year 1775 when Samuel Smith purchased the tract of land from William Penn in honor of whom this state was named, and his brother, John Penn, some member of the family has resided on the original site.

J. Carney Smith, present owner of the farm, has all the old deeds in his possession, showing that one hundred and forty six years ago the Penn brothers sold the farm to Samuel Smith and that Samuel Smith many years later disposed of the property to James Smith.

The third generation was represented by James A. Smith, father of J. Carney Smith. He deeded part of the property to his son and part to Margaret Smith. Mrs. Elsie Geiselman, daughter of J. Carney Smith, is living on the farm at the present time, making the fifth generation to live there since the purchase.

Originally the farm, which is located one mile and a half northeast of Barlow on the Barlow-Two Taverns road, was more than one hundred acres in size. The division made by James A. Smith between Margaret and J. Carney Smith, however, reduced the size to one hundred acres.

A spring out of which William Penn, John Penn and Samuel Smith, undoubtedly drank in 1775 is the only relic of the early days in Adams county. All the buildings, both large and small, which stood there generations ago, have been replaced by modern ones. The last of the original structures to be torn down was a frame building near the historic spring which was removed many years ago.

CLAIM POURING RECORD

Men Under Moyer Poured 600 Feet In One Day.

What is claimed to be a record for a day's work at pouring concrete was established recently during the making of the Gettysburg-Biglerville road.

Six hundred running feet were poured by one machine on this sixteen foot road by the Wilbur Trust Company force under E. A. Moyer, of Bethlehem, superintendent. This job was originally known as the George Merdinger Company job but was taken over by the Wilbur Trust Company from Bethlehem. These six hundred feet were poured during a twelve hour working day, exceeding by sixty six square yards the previous record in that locality established on the Harrisburg road job.

Wednesday night the Wilbur gang brought their work to a close. In thirty three days of concreting they poured 12,771 running feet, an exceptional record.

LOCAL MINISTER WEDS IN VIRGINIA

Miss Mary McConkey Bride of Rev. W. C. Robinson, Presbyterian Pastor.

Wednesday afternoon at 4 o'clock in Salem, Virginia, Miss Mary McConkey, of that place, became the bride of Rev. W. C. Robinson, recently installed as pastor of the Presbyterian Church at Gettysburg.

In order to be in Salem in ample time for the event Mr. Robinson slipped out of Gettysburg on Monday, failing to tell members of his congregation any details of the ceremony. He will not return with his bride for two weeks inasmuch as the officials of the church were requested to procure substitutes for this Sunday and the one following. Dr. A. R. Wentz, of the Theological Seminary, has been announced as the minister to fill the pulpit Sunday morning.

Miss McConkey is a daughter of Mrs. George McConkey, of Salem. Rev. Mr. Robinson is a son of E. W. Robinson, one of the leading actors of Columbia, capital city of South Carolina. He is a graduate of Roanoke College and Columbia Presbyterian Seminary. Last spring he completed a post graduate course at Princeton Seminary.

At a congregational meeting in December of last year, Mr. Robinson was unanimously called to this charge. He accepted and was installed May tenth. He and his wife will live in the Presbyterian parsonage on East High street.

Gettysburg Well Represented at Session in Abbottstown.

The 1921 convention of the Adams County branches of the W. C. T. U. convened in the Lutheran Church at Abbottstown this morning with Mrs. A. I. Weidner, vice president, presiding in the absence of Mrs. George Seaks, president.

Among the W. C. T. U. workers from Gettysburg who went to Abbottstown to attend the session last night throughout the day were Mrs. M. M. Drum, Mrs. M. R. Remmel, Mrs. J. Calvin Nau, Mrs. J. C. Knox, Miss Carrie Musselman, Miss Lily McClean, Mrs. Lilly Rowe, Mrs. P. W. Stephenson, Mrs. B. F. Gise, Mrs. Ella Walter, Mrs. Emma Stahley, Mrs. G. W. Rex and Mrs. William Wentz.

Miss Amanda Landes, state vice president, is scheduled as the speaker at tonight's session.

SPECIAL POST MEETING

Arendtsville Men Will Attend P. O. S. Of A. Services.

A special meeting of the Ira Lady American Legion post will be held Friday night at 8 o'clock to make arrangements for the members to attend the Sunday morning services of the Patriotic Order Sons of America.

These services in honor of the World War dead will be held in the Arendtsville Reformed Church at 10 o'clock. Rev. T. C. Hesson, pastor, will deliver the address.

WEDNESDAY HOTTEST DAY

Sufferers from the heat will testify that Wednesday was the hottest day and Colonel E. B. Cope, Engineer of the Gettysburg National Park Commission, is the authority for the statement that the official thermometer reached the mark of ninety six Wednesday, the highest point the mercury has touched this season. Other instruments about the town registered even higher temperatures, the thermometer at the Philadelphia and Reading Station reading ninety nine in the shade.

SPECIAL HOURS

Special taxpayers, such as automobile, pool and narcotics, will have an opportunity of making returns at the internal revenue office here next Monday, June 27, from 9:30 a. m. to 9 p. m. and on Thursday of that week from 8 a. m. to 9 p. m. deputy collector F. V. Marsh has announced.

CALLED TO FIGHT MARYLAND FIRE

Flames Sweep Manchester Causing Heavy Loss. Five Overcome. One May Die.

WATER SUPPLY GIVES OUT Hanover Men Use Chemicals Successfully. Two Firemen From That Town Injured During Blaze.

For the second time in less than a week Hanover firemen were called upon Wednesday afternoon to render assistance to Maryland towns just across the line endangered by flames. Five persons were overcome by heat and excitement, one of whom is not expected to live, when fire consumed five dwellings, two business houses and the fire department in Manchester. The loss is estimated at \$75,000.

The fire started about 2 o'clock in the afternoon in a garage belonging to Charles E. Prunt, when a blowtorch ignited a bottle of gasoline and spread flames to all parts of the garage. Owing to the lack of water supply, the fire department made little or no headway fighting the fire during the early stages.

Help From Nearby Towns

Calls for aid were sent broadcast, and help arrived from Westminster, Hampstead, Boring, Arcadia, Reisterstown and Glyndon, Md., and Hanover, Pa.

The flames quickly spread to the Gus Hill insurance office, next door to the garage, and to the dwellings which stood near. Two of the residences were owned by Mr. Prunt, and one was occupied by his son and the other by John Yingling. The other homes burned were owned and occupied by John E. Leeds, Mrs. Susan Bixler and William Lloyd.

Jacob Wareheim, Ross J. Blocher, R. C. D. Stouffle, C. A. Miller and George A. Shower were overcome by heat. Wareheim is battling flame. When the fire began to spread these men were among those who volunteered as fire-fighters.

Wareheim May Die Mr. Wareheim is said to have long been a sufferer from a weak heart, and the intense excitement and exertion, coupled with inhaling flame, are believed to be fatal.

Assistance Asked

At 9:30 p. m. the Manchester apparatus broke down and as a brisk breeze arose a call was sent to Hanover, Hampstead and Westminster, the firemen of each place responding with apparatus.

One quarter of a mile from Manchester a spark falling on the barn of John Merkle, ignited the building and it was destroyed, with three hogs and two cows. John Leeds also lost a cow and horse.

The Hanover firemen, with their 15,000 gallon pump, were handicapped by lack of water, in fighting the flames, all the wells being from 80 to 100 feet deep, and could not be reached. The Hanover firemen did all their work with chemicals.

Two firemen from this place were injured. Edward Sneringer was overcome by smoke, while George Wireman had his right hand hurt. The Hanover companies were directed by Chief Schierert.

TEN SCOUTS ON HIKE

About ten scouts of Troop One, of Gettysburg, left Wednesday afternoon at two-thirty, for the Marsh Creek Deer Camp, about ten miles from here. Carrying their equipment and provisions, they stopped at the camp for supper and to spend the night. This morning they proceeded to Monterey where this afternoon they will take the train arriving in Gettysburg tonight.

SUFFERED STROKE

Calvin Knaub, aged 60 years, suffered a heart stroke Wednesday, while unloading hay in the barn on his farm about one and a half miles from Dillsburg. He was rendered unconscious for a time.

His condition is not serious.

Charles L. Myers, Menallen, And Mrs. Lucretia Conover, Hunterstown, Are Dead.

WILLIAM H. BEEGLE

William H. Beegle died at the home of his daughter, Mrs. John Mumper, Baltimore street, at five o'clock Wednesday evening. For the past year he had made his home with his daughter here. He had been ill a week with diabetes, which caused his death.

William Beegle, who was in his sixty-eighth year, was born in Rainesburg, Bedford county, the son of Solomon and Eve Chrisman Beegle, deceased. For many years he was justice of the peace in Rainesburg, and for several years a merchant in Everett, Bedford county.

He is survived by his wife, Mrs. Sophie Beegle, of Gettysburg; a daughter, Mrs. John Mumper, Gettysburg, and two sisters, Mrs. H. H. Lysinger, Bedford, and Mrs. Wesley Lee, Altoona.

Funeral Saturday morning at 10:30 o'clock from the home of John Mumper, Baltimore street. Interment in Evergreen Cemetery, Gettysburg, Dr. A. E. Wagner officiating.

CHARLES L. MYERS

Former Carlisle Resident Dies At Home Of Sister.

Charles L. Myers, former resident of Carlisle, died at the home of his sister, Mrs. Ira Schlosser, Menallen township, Wednesday evening at 7:45 o'clock from complication of diseases. He was 46 years, 9 months and 25 days old.

For twenty years Mr. Myers was an employee of the Carlisle Chain Works coming to Adams county three years ago to live with his sister. He was a musician of considerable ability, having played in the Carlisle and Bendersville bands many years. He was a member of the Eagles lodge in Carlisle.

Surviving him are his daughter, Miss Muriel Myers, at home; two brothers, Rueben Myers, Carlisle, and Willis Myers, York; and one sister, Mrs. Schlosser. The late Hiram and Eliza Myers, Bendersville, were his parents.

Funeral services at the house Saturday afternoon at two o'clock, Rev. W. D. E. Scott officiating.

INTERMENT IN THE BENDERSVILLE CEMETERY.

MRS. LUCRETIA CONOVER

Hunterstown Woman Succumbs To Two Months Illness.

After a lingering illness lasting over a period of two months, Mrs. Lucretia J. Conover died from complication of diseases Wednesday night at 11 o'clock at her home in Hunterstown. Her condition during the last three weeks had been critical.

Mrs. Conover, widow of the late David A. Conover, a veteran of the Civil War who died August 3, 1895, was 63 years, 3 months and 11 days old. She was a life long member of the Great Onewago Presbyterian Church.

Two sisters, Miss Ida G. Brinkerhoff and Mrs. J. L. Taughinbaugh, and one brother, Garrett C. Brinkerhoff, all of Hunterstown, survive her.

Funeral services at the house Saturday afternoon at 1:30 o'clock conducted by Rev. William M. Smith, pastor of Great Onewago Church.

INTERMENT AT EVERGREEN CEMETERY, GETTYSBURG.

FRUIT SETTING SECOND BLOOMS

State Agriculture Men Explain Phenomenon Following Destruction of Bud.

POTATO GROWERS WARNED

Experts Tell of Discovery of Aphid Which Several Years Ago Caused Losses of Thousands of Dollars.

The destruction of fruit blossoms this Spring, which has occasioned orchardists in Adams county serious losses, makes important the question as to whether the trees may not set a second crop of blossoms. The phenomenon, which has been observed at times in this section may produce a second crop of fruit.

The explanation, says the State Department of Agriculture, lies in the fact that a terminal or shoot bud was killed by the spring frosts and one of the fruit buds clustered around it was compelled to take its place. These fruit buds would normally grow only enough during the coming summer to prepare them for blossom and fruit bearing in the summer of 1922. But since they have even thus early assumed the definite character of fruit buds, when compelled to change over and produce leafy shoots they cannot do so completely on such short notice.

Hence under the stimulus of vegetative growth induced by the attempt to become a leafy twig, the blossoms in these buds, that would otherwise have remained dormant for a year, are forced into development and the leafy shoot bears one or more well developed terminal flowers. It is a curious fact that to the extent to which this second blossom set occurs on a tree, we are getting the crop destined for 1922 in the present season.

Of especial interest to potato growers is the warning issued by the Department of Agriculture against the potato aphid, advising growers to carefully examine their potatoes for this insect.

This disease cost potato growers in Pennsylvania thousands of dollars several seasons ago. At the first appearance spray the potatoes with tobacco extract containing 40 per cent of nicotine sulphate, says State Agriculturists. Dilute it one part to 600 parts of water and to each 50 gallons of the diluted solution add two or

JOHNSON MAY SEE FIGHT

Attorney General Considering Pardon For Negro Prisoner.

(By Associated Press)

Washington, June 23—Attorney General Daugherty indicated today that he might consider a pardon for Jack Johnson, serving a year at Leavenworth for violation of the Mann act, before the day set for the Dempsey-Carpentier fight. Mr. Daugherty said Johnson had been a model prisoner and a "liberty bonus" for him in the way of a shortened term had been suggested.

Mr. Daugherty declared he would not consider pardoning Johnson to enable him to attend the championship fight, but that of course if any clemency was extended Johnson's time would be his own.

ARMED MEN DISPERSE

(By Associated Press)

San Antonio, Texas, June 23—The force of 150 armed men which entered Mexico near Laredo Tuesday night had been dispersed and those not captured have recrossed into the United States, according to reports received by the Mexican counsel here today. His reports were that only a few shots were fired and that the invaders whom he classed as bandits either surrendered or fled to the protection on this side of the border.

BATHING POPULAR THESE HOT DAYS

Marsh Creek Lures Swimmers. Dick's Dam Draws Dancing Set.

These sultry afternoons, when the thermometer is hitting ninety, and the electric fan merely stirs the sticky air of the office around, car after car carries a load of fagged Gettysburg boys and men to their favorite swimming haunts. Those most popular near town are Herer's Dam and "Black Hole", both on Marsh Creek. The bathers drive out the Lincoln Highway, "steppin' on 'er" when the way seems clear, turn in a side road and stop near Marsh Creek. Then over fences and field they make their way, shedding coats and collars as they go. Marsh Creek boasts no Million Dollar Piers or symphony orchestras; there is no cover but Nature's screen of trees and brush; there are no bath houses and a dry rock must serve; but the boys, whether they be scraggly sixteen or paunchy forty eagerly take off their clothes and race for the first plunge in the spring-cold water. Age is no bar. The other day a gray-haired man heard the call and stripped off his clothes to take his first swim in thirty-five years. Experience makes little difference. Strokes range from the Australian Crawl to the familiar "doggie" paddle; diving, from the graceful "jackknife" to the clumsy "whacker".

A popular resort that is a bit more pretentious than the "swimmin' holes" of Marsh Creek is Dick's Dam on Conewago Creek, about eight miles from Gettysburg. Many families have cottages along the banks of the creek, and there spend their vacations camping. Parties seek the spot for picnics and outings, to enjoy the excellent bathing or to dance on the pavilion. Saturday nights an orchestra furnishes music for dancers from Gettysburg, Hanover, Littlestown and other nearby communities. Night bathing is becoming popular among the younger set, and these bright moonlight nights find many swimmers in the water.

SUBMITS REPORT TO DENBY

Text Of Statement Of Rear Admiral Sims Withheld.

(By Associated Press)

Washington, June 23—Rear Admiral Sims today sent to Secretary Denby a written statement about his recent speech in London in which he was quoted as having criticized Irish sympathizers in the United States, and which resulted in his recall from leave. The naval secretary has the statement under consideration and meantime its text will be withheld. Returning here yesterday Admiral Sims reported to Secretary Denby at the Navy Department this morning and was directed in a written order to submit a statement. The officer reiterated that he had been misquoted in press dispatches reporting his address and apparently he had a written explanation ready when he went to the department.

Mrs. Richardson Burkett Files Claim For \$69,900. Scouts Idea That She Was Duped by Confidence Man.

(By Associated Press)

Hillsdale, Ind., June 23—Mrs. Emma Richardson Burkett, who has filed a claim for \$69,900 against the estate of the late Theodore Roosevelt for a note which she says the former president endorsed today told her story of the mysterious financial transaction.

Mrs. Burkett claims she met Roosevelt and a man introduced as Clark J. Shunson, who she believes was a former writer in a Chicago office building during the Republican National Convention in 1912 and there loaned the money to Shunson on a note that the former president signed. Mrs. Burkett scouted the idea that she had been duped by a clever confidence man posing as the former president.

"I knew Colonel Roosevelt too well for them to fool me," she said. Her story came after she had been told that counsel for the estate had characterized the former president's signature to the alleged note a forgery.

Measure Would Outlaw Beer For Medical Purposes.

(By Associated Press)

Washington, June 23—The Willis-Campbell anti-beer bill with minor amendments was reported today by the House Judiciary committee. The Rules committee is expected to give its right of way in the House within the next few days.

Aside from outlawing beer for medical purposes the bill would limit to 100 in 90 days the number of prescriptions of whiskey to be issued by physician and would authorize the prohibition authorities to stop the manufacture and importation of liquor until the present stock held in this country had been reduced. It also would extend the Volstead enforcement act to the Hawaiian and Virgin islands.

TEN SCOUTS ON HIKE

About ten scouts of Troop One, of Gettysburg, left Wednesday afternoon at two-thirty, for the Marsh Creek Deer Camp, about ten miles from here. Carrying their equipment and provisions, they stopped at the camp for supper and to spend the night. This morning they proceeded to Monterey where this afternoon they will take the train arriving in Gettysburg tonight.

SUFFERED STROKE

Calvin Knaub, aged 60 years, suffered a heart stroke Wednesday, while unloading hay in the barn on his farm about one and a half miles from Dillsburg. He was rendered unconscious for a time.

His condition is not serious.

DEATH CLAIMS THREE IN COUNTY

Charles L. Myers, Menallen, And Mrs. Lucretia Conover, Hunterstown, Are Dead.

WILLIAM H. BEEGLE

William H. Beegle died at the home of his daughter, Mrs. John Mumper, Baltimore street, at five o'clock Wednesday evening. For the past year he had made his home with his daughter here. He had been ill a week with diabetes, which caused his death.

William Beegle, who was in his sixty-eighth year, was born in Rainesburg, Bedford county, the son of Solomon and Eve Chrisman Beegle, deceased. For many years he was justice of the peace in Rainesburg, and for several years a merchant in Everett, Bedford county.

He is survived by his wife, Mrs. Sophie Beegle, of Gettysburg; a daughter, Mrs. John Mumper, Gettysburg, and two sisters, Mrs. H. H. Lysinger, Bedford, and Mrs. Wesley Lee, Altoona.

Funeral Saturday morning at 10:30 o'clock from the home of John Mumper, Baltimore street. Interment in Evergreen Cemetery, Gettysburg. Dr. A. E. Wagner officiating.

CHARLES L. MYERS

Former Carlisle Resident Dies At Home Of Sister.

Charles L. Myers, former resident of Carlisle, died at the home of his sister, Mrs. Ira Schlosser, Menallen township, Wednesday evening at 7:45 o'clock from complication of diseases. He was 46 years, 9 months and 25 days old.

For twenty years Mr. Myers was an employee of the Carlisle Chain Works coming to Adams county three years ago to live with his sister. He was a musician of considerable ability, having played in the Carlisle and Bendersville bands many years. He was a member of the Eagles lodge in Carlisle.

Surviving him are his daughter, Miss Mariel Myers, at home; two brothers, Rueben Myers, Carlisle, and Willis Myers, York; and one sister, Mrs. Schlosser. The late Hiram and Eliza Myers, Bendersville, were his parents.

Funeral services at the house Saturday afternoon at two o'clock, Rev. W. D. E. Scott officiating. Interment in the Bendersville cemetery.

MRS. LUCRETIA CONOVER

Hunterstown Woman Succumbs To Two Months Illness.

After a lingering illness lasting over a period of two months, Mrs. Lucretia J. Conover died from complication of diseases Wednesday night at 11 o'clock at her home in Hunterstown. Her condition during the last three weeks had been critical.

Mrs. Conover, widow of the late David A. Conover, a veteran of the Civil War who died August 3, 1906, was 63 years, 3 months and 11 days old. She was a life long member of the Great Conewago Presbyterian Church.

Two sisters, Miss Ida G. Brinkerhoff and Mrs. J. L. Taughinbaugh, and one brother, Garrett C. Brinkerhoff, all of Hunterstown, survive her. Funeral services at the house Saturday afternoon at 1:30 o'clock conducted by Rev. William M. Smith, pastor of Great Conewago Church. Interment at Evergreen cemetery, Gettysburg.

FRUIT SETTING SECOND BLOOMS

State Agriculture Men Explain Phenomenon Following Destruction of Bud.

POTATO GROWERS WARNED

Experts Tell of Discovery of Aphid Which Several Years Ago Caused Losses of Thousands of Dollars.

The destruction of fruit blossoms this Spring, which has occasioned orchardists in Adams county serious losses, makes important the question as to whether the trees may not set a second crop of blossoms. The phenomenon, which has been observed at times in this section may produce a second crop of fruit.

The explanation, says the State Department of Agriculture, lies in the fact that a terminal or shoot bud was killed by the spring frosts and one of the fruit buds clustered around it was compelled to take its place. These fruit buds would normally grow only enough during the coming summer to prepare them for blossom and fruit bearing in the summer of 1922. But since they have even thus early assumed the definite character of fruit buds, when compelled to change over and produce leafy shoots they cannot do so completely on such short notice.

Hence under the stimulus of vegetative growth induced by the attempt to become a leafy twig, the blossoms in these buds, that would otherwise have remained dormant for a year, are forced into development and the leafy shoot bears one or more well developed terminal flowers. It is a curious fact that to the extent to which this second blossom set occurs on a tree, we are getting the crop destined for 1922 in the present season.

Of especial interest to potato growers is the warning issued by the Department of Agriculture against the potato aphid, advising growers to carefully examine their potatoes for this insect.

This disease cost potato growers in Pennsylvania thousands of dollars several seasons ago. At the first appearance spray the potatoes with tobacco extract containing 40 per cent of nicotine sulphate, says State Agriculturalists. Dilute it one part to 600 parts of water and to each 50 gallons of the diluted solution add two or

JOHNSON MAY SEE FIGHT

Attorney General Considering Pardon For Negro Prisoner.

(By Associated Press)

Washington, June 23—Attorney General Daugherty indicated today that he might consider a pardon for Jack Johnson, serving a year at Leavenworth for violation of the Mann act, before the day set for the Dempsey-Carpentier fight. Mr. Daugherty said Johnson had been a model prisoner and a "liberty bonus" for him in the way of a shortened term had been suggested.

Mr. Daugherty declared he would not consider pardoning Johnson to enable him to attend the championship fight, but that of course if any clemency was extended Johnson's time would be his own.

ARMED MEN DISPERSE

(By Associated Press)

San Antonio, Texas, June 23—The force of 150 armed men which entered Mexico near Laredo Tuesday night had been dispersed and those not captured have recrossed into the United States, according to reports received by the Mexican counsel here today. His reports were that only a few shots were fired and that the invaders whom he classed as bandits either surrendered or fled to the protection on this side of the border.

BATHING POPULAR THESE HOT DAYS

Marsh Creek Lures Swimmers. Dick's Dam Draws Dancing Set.

These sultry afternoons, when the thermometer is hitting ninety, and the electric fan merely stirs the sticky air of the office around, car after car carries a load of fagged Gettysburg boys and men to their favorite swimming haunts. Those most popular near town are Heret's Dam and "Black Hole", both on Marsh Creek. The bathers drive out the Lincoln Highway, "steppin' on 'er" when the way seems clear, turn in a side road and stop near Marsh Creek. Then over fences and field they make their way, shedding coats and collars as they go. Marsh Creek boasts no Million Dollar Piers or symphony orchestras; there is no cover but Nature's screen of trees and brush; there are no bath houses and a dry rock must serve; but the boys, whether they be scraggly sixteen or paunchy forty eagerly take off their clothes and race for the first plunge in the spring-cool water. Age is no bar. The other day a gray-haired man heard the call and stripped off his clothes to take his first swim in thirty-five years. Experience makes little difference. Strokes range from the Australian Crawl to the familiar "doggie" paddle; diving, from the graceful "jackknife" to the clumsy "whacker."

A popular resort that is a bit more pretentious than the "swimmin' holes" of Marsh Creek is Dick's Dam on Conewago Creek, about eight miles from Gettysburg. Many families have cottages along the banks of the creek, and there spend their vacations camping. Parties seek the spot for picnics and outings, to enjoy the excellent bathing or to dance on the pavilion. Saturday nights an orchestra furnishes music for dancers from Gettysburg, Hanover, Littlestown and other nearby communities. Night bathing is becoming popular among the younger set, and these bright moonlight nights find many swimmers in the water.

SUBMITS REPORT TO DENBY

Text Of Statement Of Rear Admiral Sims Withheld.

(By Associated Press)

Washington, June 23—Rear Admiral Sims today sent to Secretary Denby a written statement about his recent speech in London in which he was quoted as having criticized Irish sympathizers in the United States, and which resulted in his recall from leave. The naval secretary has the statement under consideration and meantime its text will be withheld.

Returning here yesterday Admiral Sims reported to Secretary Denby at the Navy Department this morning and was directed in a written order to submit a statement. The officer reiterated that he had been misquoted in press dispatches reporting his address and apparently he had a written explanation ready when he went to the department.

CHARACTERIZED FORGERY

Mrs. Richardson Burkett Files Claim For \$69,900. Scouts Idea That She Was Duped by Confidence Man.

(By Associated Press)

Hillsdale, Ind., June 23—Mrs. Emma Richardson Burkett, who has filed a claim for \$69,900 against the estate of the late Theodore Roosevelt for a note which she says the former president endorsed today told her story of the mysterious financial transaction.

Mrs. Burkett claims she met Roosevelt and a man introduced as Clark J. Shunson, who she believes was a former writer in a Chicago office building during the Republican National Convention in 1912 and there loaned the money to Shunson on a note that the former president signed. Mrs. Burkett scouted the idea that she had been duped by a clever confidence man posing as the former president.

"I knew Colonel Roosevelt too well for them to fool me," she said. Her story came after she had been told that counsel for the estate had characterized the former president's signature to the alleged note a forgery.

REPORT ANTI-BEER BILL

Measure Would Outlaw Beer For Medical Purposes.

(By Associated Press)

Washington, June 23—The Willis-Campbell anti-beer bill with minor amendments was reported today by the House Judiciary committee. The Rules committee is expected to give its right of way in the House within the next few days.

Aside from outlawing beer for medical purposes the bill would limit to 100 in 90 days the number of prescriptions of whiskey to be issued by physician and would authorize the prohibition authorities to stop the manufacture and importation of liquor until the present stock held in this country had been reduced. It also would extend the Volstead enforcement Act to the Hawaiian and Virgin islands.

STOCK REPORT

Reversals Follow Rallies Cancelling Many Gains.

(By Associated Press)

New York, June 23—Rallies and reversals occurred in the stock market during the morning. Mexican and Pan-American Petroleum, Royal Dutch, Baldwin Locomotive and American Sugar steadied the list for a time at advances of 1 to 4 points. Gains were cancelled before noon, however, when greater pressure was directed against steels, equipments, shippings, motors and rubbers. United States Steel made a new low record at 70 3/4. Call money opened at five per cent.

SEARCH FOR TEN SHIPS
Mysteries As Wierd As Fiction of
Conrad.

Washington, June 23—Mysteries
of the sea, as wierd and apparently as
unsolvable as any of Jules Verne's or
Joseph Conrad's dashing fiction, now
confront government authorities in
their efforts to explain the strange
disappearance of at least ten ships
within the last year.

Various reasons have been sug-
gested: Pirates, mutinous crews,
floating mines, but one guess seems
as good as another. A veil of con-
fusion and conjecture, through
which a single unsigned and cryptic
bottle message has come, baffles all at-
tempts to make the Atlantic divulge
its secrets.

The State Department and the De-
partment of Commerce hold to the
theory that pirates are at work and
the vessels reported missing under
suspicious circumstances have been
captured and their crews murdered or
pressed into service.

So positive is the State Depart-
ment's view in this direction that it
has directed a world-wide lookout
of ships and their crews that have
mysteriously disappeared after hav-

ing been sighted or having wireless-
ed for help. The department officially
announced yesterday that in its opin-
ion there was foul play and looting
connected with the wrecking of the
American schooner Carol Deering on
Diamond Shoals in January.

Decline in Road Building Figures
Marks Opening of Bids.

M. Bennett and Sons, of Indiana,
the firm which built the first road in
the county on the Harrisburg road,
was the low bidder for an eight-mile
job in Tioga county, it was learned
Wednesday when bids were opened at
office of the State Highway Depart-

Bennett firm was \$517,955.75.

Marked declines featured the bids
made for highway construction when
the bids for the construction of forty
four miles contained in sixteen pro-
jects were opened as compared with
figures of six months and more ago,
one of the most noticeable being in
Dallastown, York county, where there
was a drop of \$30,000. In all eighty
five bids were received. The bids were
regarded as satisfactory generally.

FOR GOVERNMENT RAIL OWNERSHIP

Executive Council Directed to Draw Up Legislation to That End.

HOT DEBATE IN MEETING

Charges of Bolshevism And Socialism Given Minority. Gompers' Rival For Government Control.

Denver, Colo., June 23—Reaffirming its stand for government ownership with democratic operation of the railroads, the convention of the American Federation of Labor yesterday directed its executive council to draw up proposed legislation designed to give the workers, through government regulation, equal rights and privileges with capital in organized enterprises.

The convention sustained the action of the resolution committee in striking out of the resolution a phrase that would have put organized labor on record as declaring for government control and democratic operation of all industries organized under corporate grants and privileges.

Majority Report Overthrown

In authorizing the legislative program the convention overthrew the majority report of the resolutions committee, which provided only aid for the railroad unions in their fight for government ownership of the railroads.

The debate was long and stormy, opponents of the minority arguing that its declarations were "socialist and red" and were designed to extend government ownership to all basic industries of the country, including the mines, textile, iron and steel, newspaper and book industries. They were answered with the argument that the declarations set forth a "sane and constructive policy for organized labor" and "there was no Socialism, Bolshevism, Communism or Anarchism in it."

Because of objections of the International Seamen's Union and the teamsters union delegates to government control of their industry, the convention amended the declaration so that it would apply only to the railroad systems.

One of the chief supporters of the report involving the application of the principles of government ownership to all basic industries was President John L. Lewis, of the United Mine Workers, who is a candidate for the presidency of the Federation.

Mr. Lewis said the miners still had under consideration the problem of nationalization of the mines and he declared for "government control of those basic industries, where the workers felt such policy was essential and desired."

"The American Federation of Labor" said the approved declaration, "hereby declares its purpose to secure a return to those principles upon which our government was instituted in order that we may better secure the blessings of liberty and to that end we reaffirm our united support so that organization which will bring about public ownership and democratic operation of the railroads of the United States as being in strict conformity with those principles upon which the government is instituted."

"We declare for the recognition and restoration of those fundamental principles so that these men who contribute their effort to the industry shall enjoy all the rights, privileges and immunities granted to those men who contributed capital, in proportion to the value which each contributes; in order that the government shall be instituted for the common good and not for the profit of a class and in order that all men may enjoy the gains of their own industry."

MRS. KABER ENGAGED HIM

Slayer of Publisher Testifies Against Widow.

Cleveland, O., June 23—Mrs. Eva Catherine Kaber and Mrs. Erminia Colavito, charged with first-degree murder of Mrs. Kaber's husband, Daniel F. Kaber, engaged in stony silence yesterday the accusation of Salvatore Cala, confessed slayer of Kaber, that they had engaged him and Vittorio Pisselli to commit the murder. Cala was captured in Buffalo last Friday and brought here Tuesday.

Word for word as he had previously related to the police the story of the crime and events leading up to it Cala repeated it yesterday, first when taken before Mrs. Kaber in Assistant County Prosecutor Cassidy's office and again when he was taken to where Mrs. Calavito lay ill in her cell in the county jail. Neither woman made any reply to Cala's accusations.

Cassidy declared that the State's case was strengthened, if anything, by the refusal of the women to comment on Cala's accusations.

"We will not even have to us Cala as a witness against them," he said, "since he has related his story in their presence and in the hearing of witnesses."

CLERGY DEMAND PARLEY TO DISARM

Petition to President Harding Has 20,000 Signers. All Creeds Represented.

Washington, June 23—Steps toward an international conference on reduction of armaments "at the earliest possible date" were requested of President Harding in a petition signed by more than 20,000 clergymen of every faith and presented by a delegation from the Church Peace Union.

It bore the indorsement of the National Catholic Welfare Council, the United Synagogues of America, the Central Conference of American Rabbis and the Federal Council of the Churches of Christ in America. Among the listed signers were Baptists, Methodists, Presbyterians, Lutherans, Episcopalians, Disciples of Christ, Congregationalists, Catholics, Unitarians, Friends and Rabbis.

Unlike Other Documents

Dr. Nehemiah Boynton, of New York, chairman of the committee, told Mr. Harding that no other document of the same representative value in the disarmament movement ever had been prepared.

The President was quoted by members of the committee as saying that he hoped eventually to carry out their request, although the process could not be carried forward as rapidly as many people would like to see it. He also was quoted as saying that the United States must have a general agreement regarding armaments before she could afford to permit her own to be reduced to too low a point.

The petition presented by the committee attempted no argument for disarmament, its text being as follows:

Text Of Petition

"We, the undersigned clergymen, urge the President and Congress of the United States to call a conference of the leading nations on reduction of armaments at the earliest possible date."

NEED ECONOMY RASMUSSEN SAYS

Gives Message to Farmers at Big Gathering in State College.

Practice of the utmost economy and thorough co-operation in both production and marketing were emphasized as immediate necessities to be observed by Pennsylvania farmers in order that they may obtain the best results from their efforts, in the message given by State Secretary of Agriculture Rasmussen to hundreds of agriculturists assembled at State College Wednesday night for the opening of the annual June Farmers' Week program at the College Agriculture School.

Farm agent Paul Hoffman, representing the Adams County Farm Bureau, is in attendance.

Secretary Rasmussen placed much stress on the fact that more farm produce is being shipped into Pennsylvania from other States than there should be, because of the lack of organized marketing methods in this State that are practiced elsewhere. Thousands of cars of apples, potatoes and vegetables come into Pennsylvania each year, when there is sufficient production for home-consumption, but the others are salable because of the first-class methods of grading and packing used by organized shippers. New laws will assist the growers of the State to reach these standards with the co-operation of all, the Secretary believes.

"Never in the history of the country have the prices of commodities affecting a great industry plunged so low in such a short time as have the prices of farm products," Secretary Rasmussen declared. "But agriculture is not the only industry that is suffering, and you farmers of Pennsylvania are not so badly off financially as your co-workers of the West and South. Yet you face many difficult economic problems to be solved through your own efforts in the efficient, economic production of such crops as our soil, climate and markets are best adapted to, and by a system of marketing including standardization and grading, which will give our product the same opportunity in our own and other markets as have products from other parts of the country and the world."

NEW BORDER OUTBREAK

San Antonio, Tex., June 23—Four detachments, comprising about 150 well armed men, have crossed the border into Mexico near Laredo and, it is reported here, are intent on severing rail communication between Nuevo Laredo and Monterey, or an attack on Piedras Negras.

The Department of Justice here announced the crossing of the force. The department has the names of three former Carranzista leaders who are said to be in charge of the band, but the names were not made public. It is unofficially reported General Francisco Murguía is with the expedition.

PLANES COLLIDE 2 FLYERS DROWN

Fall Into Chesapeake After Machines Crash During Bombing Raid.

WAS PECULIAR ACCIDENT

Big TNT Bomb Dropped Near Wreckage Shortly After Crash. Difficult to Recover Bodies.

Washington, June 23—Two of the leading fliers of the Army Air Service, Captain Howard T. Douglas and Lieutenant Maril J. Plumb, were drowned in Chesapeake Bay yesterday after a collision of their planes in the course of a bombing raid directed at the hulk of the old battleship San Marcos off Tangier Island.

Reports received by the War Department from Langley Field, Va., said the accident was one of the most peculiar on record. Lieutenant Plumb, flying a fast single seat plane, was dropping bombs and Captain Douglas, in a similar machine, was observing the raid from above. Plumb's plane had just dropped a bomb and was climbing upward, as is the custom after releasing the weapon, when it struck Captain Douglas' machine, cutting off its tail.

Both Fall In Bay

Both ships fell into the Bay and disappeared, together with their pilots, whose bodies had not been recovered last night, although search had been made by a number of army and navy craft, ordered to the scene after the accident.

Langley Field officials reported that soon after the planes fell another of the bombing planes dropped a bomb containing 300 pounds of TNT and that it fell near where the machines went down. It was evident, it was said, that the pilot of this machine, one of many participating in the attack on the San Marcos, had not seen the planes fall. The terrific explosion of this bomb, aviation officers said, probably would make more difficult the recovery of the bodies of the officers or the planes.

Captain Douglas, whose home was in Covina, Cal., was one of the best-known of Army fliers. He was attached to Air Service headquarters, here and went by rail ahead of the Army aviators on their recent flight to Alaska to select landing fields and make all arrangements for them.

Lieutenant Plumb, whose home was in Fond du Lac, Wis., was recognized officers here said, as one of the Army's most expert fliers. When ordered to Langley Field to participate in the joint Army and Navy bombing tests, he flew from San Antonio in a big Caproni machine.

GIRL, 17, BIGAMIST

Admits She Has Three Husbands Living.

Pittsburgh, June 23—Mrs. Gertrude Brown Burkhardt Sylvester, 17, arraigned on a charge of bigamy, yesterday admitted she has three husbands living and has not been divorced from any of them. She refuses to take the situation seriously and smilingly explains that she has "traveled extensively, picking up a husband occasionally."

The overmarried young woman was arrested in her home. The warrant was signed by an attache of the juvenile court after it had been ascertained that she had two more husbands than law and custom allow.

The three husbands, according to the charges, are Samuel Brown, Franklin, Missouri; Frank Burkhardt, Jeffersonville, Indiana, and John Sylvester, Pittsburgh.

Following the hearing, Magistrate DeWolfe said he would turn the accused girl over to the juvenile court until an investigation could be made.

In speaking of her experiences, Mrs. Sylvester said her first husband, Samuel Brown, who was 32 years old, was "too old and cranky." "My marriage to him in 1918 was forced. I told him I didn't love him and that I would leave him, and I did."

LOSES OPEN SHOP FIGHT

Chicago, June 23—The Pullman Company lost its open shop fight before the United States Railroad Labor Board when the board upheld the contention of union leaders that the company had not obeyed "the letter and spirit" of the transportation act when it conferred with its employees in mass meetings.

The board threw out the company's petition for a cut in the wages of its shop employees and instructed it to go back and meet the "duly elected representatives" of the employees.

The shop crafts and clerks in the Pullman works are involved in the case. The board's decision will delay action on a reduction in their wages for several weeks.

Under the transportation act, the company must meet the union leaders, and in the event they fail to reach a decision, file a petition before the Board and ask a new hearing.

FUTURE OF ROADS VERY DOUBTFUL

Warfield Tells Senate That Only Normal Conditions Will Bring Prosperity.

Washington, June 23—Study of the railroad problem was resumed yesterday by the Senate Interstate Commerce Committee with S. Daves Warfield, president of the National Association of Railroads Securities, as the chief witness.

"The question for the moment is," Mr. Warfield said, "can sufficient revenue be obtained from rates and fares that will be considered reasonable by the public and the shippers, and will these rates bear a relation to the price obtainable for the articles transported, that will not impede commerce; or will part of the money required to meet the necessities of transportation have to be supplied in the public interest by taxation?"

Would Mean U. S. Ownership

The latter meant Government operation and eventual Government ownership and should be avoided by all means, the witness declared. He expressed the belief that with proper economies and the return of normal business conditions the railroads could earn a 6 per cent return and also reduce rates, adding, that the recent increase in rates could not be held accountable for the contraction of the carriers' business.

Mr. Warfield thought organization of railroad officials as grouped in each of the four regions established by the Interstate Commerce Commission, and creation of central agency to supply equipment without profit and perform other services under supervision of the Interstate Commerce Commission would solve the problem. He submitted two bills for that purpose.

COUNTY TOWN TO HAVE PLAYGROUND

Committee of Arendtsville Men Effects Purchase of Three Acre Tract.

For the purpose of providing an outdoor playground and new baseball diamond for the people of Arendtsville and vicinity the Arendtsville Athletic Association has purchased a three acre tract of land from R. B. Myers.

This field which will be converted into a playground containing a baseball diamond is located a short distance outside the eastern borough limit along the Conewago creek. It cost the Athletic Association \$800.

It is the intention of the association to have not only a baseball diamond but tennis courts and swings at their playground which will open in several weeks. As soon as the owner gets his crop of hay off the field efforts will be made to lay off the diamond and get it in shape for the games scheduled for July, especially the one with New Oxford July 23. If possible games will be played there before that time.

Dr. William E. Wolf is president of the association which effected the purchase of the new playground while Charles E. Raffensperger is vice president, P. S. Orner secretary and W. A. Raffensperger treasurer.

Dr. Wolf, Charles Raffensperger, J. A. Kane, C. H. Klepper, R. C. Walton, W. W. Wood and S. A. Skinner composed the committee which purchased the land. About half of the necessary \$800 has been raised and the remaining \$400 will be solicited for by the committee.

WAITS CHANCE TO ELOPE

Young Lochinvar Has License, But Girl Is Guarded.

Georgetown, Del., June 23—With a young Lochinvar waiting outside the door to carry off his fair Ellen, not on a romantic charger, but a modern auto, Georgetown has all the elements for an O. Henry romance.

This young Lochinvar, Clyde M. Dameron, has no trusty broadsword, but a perfectly good marriage license permitting him to wed Elva M. Rodgers. Armed with this license he hovers hawkwise over the Rogers' castle, ready when her parents' guard relaxes to swoop down and carry off the fair Elva.

Dameron, whose native heath is Alexandria, Virginia, was here for a brief stay, when the "Blind God" smote him at the sight of Miss Elva.

Deep in love, he courted his lady a week, and fortune and she smiled upon him. Then came gloom. Like the famous Highlander's, his suit was denied by the cruel parents. The Rogers, father and mother, would have none of him.

Clyde knows not discouragement. He waits for the day and hour when the parents' vigilance relaxes. Then he will swoop down on the nest and it will be away to the nearest parson with the fair Elva.

THREE BOYS DROWN

Accident Occurred Wednesday Afternoon Near Westminster.

While playing on the banks of Winters stream near Westminster, Wednesday afternoon three little boys—William Witte, nine; Randall Witte, eight, brothers, and Lloyd McRay, nine—were drowned. Their bodies were recovered late Wednesday afternoon.

The boys had been seen playing together early in the afternoon, but when supper-time came and they did not show up a search was instituted. A man walking from Manchester, where he had been to the fire, passed along the stream and saw what he thought was a boy's head sticking out of the water.

It is not thought that the boys were in swimming, as all were fully clothed. The theory is that one of them slipped on the steep bank and into the water, and that the other two attempted to rescue him, when all were drowned.

The Witte boys are sons of Mr. and Mrs. William Witte and the McRay boy is the son of Sgt. and Mrs. James McRay, who have only recently moved here.

STORM SUBSIDES

Dallas, Tex., June 23—Reports received here from a greater part of the Texas coast last night indicated that the tropical storm of late last night and Wednesday had practically subsided in that area, but showed a tendency to go inland or be deflected eastward along the coast.

At Galveston the tide was rapidly receding and the barometer rising.

Unofficial reports from Corpus Christi said that the weather had virtually cleared there and that no further disturbances were expected.

There had been no reports late last night of loss of life in the storm area. Six boats, including one large Shipping Board tanker, sank at Port Aransas early yesterday, according to information received from Corpus Christi.

BEAUVAIS MAY TESTIFY

Yenkers, N. Y., June 23—Counsel for Mrs. Anne U. Stillman, defending the divorce suit brought by her banker husband, declined yesterday to comment on departure of one of their number for Montreal. They would neither confirm nor deny a report that he would seek to bring back Fred Beauvais, Indian guide, named as co-respondent, to testify for Mrs. Stillman.

MARYLAND CROP SMALL

Maryland's apple crop promises to be the smallest in the past twenty years as effects of the early spring freeze and comparatively recent hail storms in a number of apple-growing sections become increasingly evident.

Figures now coming in from the various counties of the state to S. B. Show, specialist in horticulture for the University of Maryland extension service and secretary of the Maryland State Horticultural Society, and information compiled by the Bureau of Crop Estimates, U. S. Department of Agriculture, indicate 20.6 per cent of a crop compared to an estimated crop of 70 per cent for last year.

This is the smallest crop forecast for the state since 1900 and is less than half of the light crop of 1913, which previously marked the lowest apple production for the state during the past twenty years.

BRYSONIA

Brysonia—Those who visited Mr. and Mrs. Simon Orner, at Mountain Spring farm, on Sunday, were: Mr. and Mrs. John Neff, Mr. and Mrs. Oscar Bream, Miss Helen Haner, of Gettysburg; Mrs. Crist Cooley and daughters, Clara and Hazel, of Mt. three pounds of laundry soap or fish oil soap, dissolving the soap, of course, before adding. Be very thorough in making the application and be sure to apply the spray material to the under side of the leaves, as that is where the aphid lives.

The potato aphid is inconspicuous, so is liable to be overlooked unless careful search is made. Unless found and destroyed when first appearing on the potato plants they will multiply with such rapidity that in two weeks time the crop will be seriously damaged, if not destroyed, as many growers learned to their sorrow several years ago when many thousands of dollars damage was done to the potato crop.

The potato aphid is not only important from the destruction caused to the plants, but is also known to transmit two of the most troublesome potato diseases, leaf roll and mosaic. Potatoes which are to be used for seed should for this reason be kept free from aphid infestation.

ABDUCTS GIRL HE WOULD MARRY

Scranton Man Carries Her to Mountains. Searching Parties Out.

Scranton, Pa., June 23—Abducted by a suitor whom she had rejected, Miss Mary Murphy, 20, a trained nurse, is being held a prisoner somewhere in the mountains between Carbondale and Honesdale, while State Troopers, city police and several troops of Boy Scouts are searching for her.

For fifteen hours, the searchers have scoured the fields and the thickly-wooded hills for many miles in all directions from here, but so far they have found no trace of the girl and Thomas McMynn, 21, who is believed to have dragged her off with him to some spot inaccessible and far removed from habitations. McMynn was arrested last week on the charge of annoying the nurse after she had refused to wed him.

The last word of the girl before she disappeared in the mountains came from an alien family living on the East mountain near Simpson. These people, through interpreters, said they were awakened early Tuesday morning by screams, and saw a man and a woman fighting as they proceeded along the road. The man was driving the woman ahead of him, the foreigners said, by threatening her with death if she halted or turned back.

According to information collected by the police, Miss Murphy was visiting at the home of her sister, Mrs. Thomas Thompson, when a telephone message came asking her to take a case for a Carbondale physician, and that an automobile would call for her. In a short time, the automobile arrived and Miss Murphy departed in it, but her brother-in-law, who was suspicious of the message and the assignment, followed her in another machine for a short distance.

FIND NEW TEST FOR EINSTEIN THEORY

Chicago Professor Announces Series of Untried Experiments in Relativity.

Chicago, June 22—The Einstein theory of relativity is to be subjected to a new practical test by Prof. Albert A. Michelson of the University of Chicago, whose discoveries led to its formulation. The forthcoming experiment is expected either to lend substantial support to the theory or to disprove it.

Prof. Michelson, who is now lecturing at the University of Paris, is expected back about July 1st and the test is planned within the next year. It will be conducted under the auspices of the University of Chicago, either in this city or in some mountainous country.

The experiment has been undertaken at the request of Dr. Ludwick Silberstein of the Eastman Research Laboratories at Rochester, N. Y., who has worked out its terms. It is said that Professor Albert Einstein on his recent visit to the United States expressed his belief in the efficacy of the experiment.

Just what it is planned to do to determine whether Einstein's theory holds or not was explained here today by Prof. Robert A. Millikan, colleague of Prof. Michelson in the department of physics of the University of Chi-

cago. Divesting the subject of technical details, Prof. Millikan said:

"This is, as a matter of fact, an experiment suggested by Prof. Michelson 20 years ago as one way of testing whether or not it is possible to detect a motion of the earth with respect to the medium which carries light.

"All efforts thus far made to detect by means of light effects the motion of any material body with respect to the ether have failed. But all preceding attempts have been made with the idea of trying to measure the linear motion through space of a point on the earth with respect to the ether surrounding that point, and the results thus far obtained have been wholly negative.

REFORMED CHURCH REUNION JULY 21

Arrangements Completed For Annual Outing at Pen Mar.

Details of the 23rd annual reunion of the Reformed Church of Southern Pennsylvania, Maryland, the District of Columbia, Virginia and West Virginia to be held at Pen Mar, have been completed, it was announced by Paul F. Schminke, York, secretary of the reunion committee. The outing, which usually attracts between 3,000 and 4,000 members of the Reformed Church from these districts, will be held on Thursday, July 21. Special features have been added to this year's program.

Special trains to carry the excursionists to the mountain resort will be operated through Gettysburg. Many people will make the trip by automobile, it is expected.

The program for the day's activities will be entered upon at 1.30 o'clock. The principal speaker this year will be the Rev. Dr. Edwin Howard Romig, pastor of St. Andrew's Reformed Church, of Reading. Music is to be furnished by the quartette choir of St. John's Reformed Church, of Harrisburg, of which the Rev. Clayton H. Ranch is the pastor.

The committee which has charge of arrangements for the reunion is composed of Emory L. Coblenz, of Frederick, president; Ephraim Cornman, of Washington, D. C., vice president; Paul F. Schminke, York, secretary, and Samuel S. Brenner, of Mechanicsburg, treasurer. The directors of the Reformed Church Reunion association are Charles E. Hintelman, of Chambersburg; the Rev. John L. Barnhart, of Baltimore; W. C. Bierly, of Frederick; H. T. Weaver, of Gettysburg; Howard E. Bair, of Hanover; the Rev. Clayton E. Ranch, of Harrisburg; Harry Brinkley, of Hagerstown, and the Rev. Paul D. Yoeder, of Jefferson, York county.

Men Who Fired On Legion Begin Long Sentences.

Walla Walla, Wash., June 23—Seven men, former I. W. W.'s convicted of murder in connection with the armistice day shooting at Centralia in 1919, in which several American Legion members were killed, were brought to the State Penitentiary under heavy guard on Tuesday. They are under sentence of from 25 to 40 years. They were handcuffed and chained together. They were brought here from Montezano, where their trials were held more than a year ago. The State Supreme Court recently affirmed their conviction.

A Scot was taken out of the train at Willenden for being drunk and disorderly. He had got into bad company, he said. "Bad company—how?" the Magistrate asked. "Weel, sir, ye see, I had two bottles o' speerits in ma bag an' a' the ither men in ma compairment wis tee-total."

DIES OF INJURIES

Pittsburgh, June 23—Gerge W. Richards, 56, of Duquesne, former sheriff of Allegheny county, died in the West Penn Hospital Tuesday as a result of an automobile accident on the Chambersburg road last April. The former sheriff, with James Hart, was enroute to Harrisburg when a wheel of the machine broke, causing the car to crash head on into an iron pole along the roadside. Mr. Richards was thrown against the pole and hurt internally.

Mr. Richards served in the Pennsylvania Legislature from 1908 to 1912, when he was elected sheriff.

Tillie Clinger says the reason they call her stuck up at her boarding house is because she left the table when the star boarder crumbled crackers in his soup and ate it with a fork.

FOR GOVERNMENT RAIL OWNERSHIP

Executive Council Directed to Draw Up Legislation to That End.

HOT DEBATE IN MEETING

Charges of Bolshevism And Socialism Given Minority. Gompers' Rival For Government Control.

Denver, Colo., June 23—Reaffirming its stand for government ownership with democratic operation of the railroads, the convention of the American Federation of Labor yesterday directed its executive council to draw up proposed legislation designed to give the workers, through government regulation, equal rights and privileges with capital in organized enterprises.

The convention sustained the action of the resolution committee in striking out of the resolution a phrase that would have put organized labor on record as declaring for government control and democratic operation of all industries organized under corporate grants and privileges.

Majority Report Overthrown In authorizing the legislative program the convention overthrew the majority report of the resolutions committee, which provided only aid for the railroad unions in their fight for government ownership of the railroads.

The debate was long and stormy, opponents of the minority arguing that its declarations were "socialist and red" and were designed to extend government ownership to all basic industries of the country, including the mines, textile, iron and steel, newspaper and book industries. They were answered with the argument that the declarations set forth a "sane and constructive policy for organized labor" and "there was no Socialism, Bolshevism, Communism or Anarchism in it."

Because of objections of the International Seamen's Union and the teamsters union delegates to government control of their industry, the convention amended the declaration so that it would apply only to the railroad systems.

One of the chief supporters of the report involving the application of the principles of government ownership to all basic industries was President John L. Lewis, of the United Mine Workers, who is a candidate for the presidency of the Federation.

Mr. Lewis said the miners still had under consideration the problem of nationalization of the mines and he declared for "government control of those basic industries, where the workers felt such policy was essential and desired."

"The American Federation of Labor" said the approved declaration, "thereby declares its purpose to secure a return to those principles upon which our government was instituted in order that we may better secure the blessings of liberty and to that end we reaffirm our united support so that organization which will bring about public ownership and democratic operation of the railroads of the United States as being in strict conformity with those principles upon which the government is instituted."

"We declare for the recognition and restoration of those fundamental principles so that these men who contribute their effort to the industry shall enjoy all the rights, privileges and immunities granted to those men who contributed capital, in proportion to the value which each contributes in order that the government shall be instituted for the common good and not for the profit of a class and in order that all men may enjoy the gains of their own industry."

MRS. KABER ENGAGED HIM

Slayer of Publisher Testifies Against Widow.

Cleveland, O., June 23—Mrs. Eva Catherine Kaber and Mrs. Emma Colavito, charged with first-degree murder of Mrs. Kaber's husband, Daniel F. Kaber, received in story silence yesterday the accusation of Salvatore Cala, confessed slayer of Kaber, that they had engaged him and Vittorio Pisselli, to commit the murder. Cala was captured in Buffalo last Friday and brought here Tuesday.

Word for word as he had previously related to the police the story of the crime and events leading up to it, Cala repeated it yesterday, first when taken before Mrs. Kaber in Assistant County Prosecutor Cassidy's office and again when he was taken to where Mrs. Colavito lay all in her cell in the county jail. Neither woman made any reply to Cala's accusations.

Cassidy declared that the State's case was strengthened, if anything, by the refusal of the women to comment on Cala's accusations. "We will not even have to us Cala as a witness against them," he said, "since he has related his story in their presence and in the hearing of witnesses."

CLERGY DEMAND PARLEY TO DISARM

Petition to President Harding Has 20,000 Signers. All Creeds Represented.

Washington, June 23—Steps toward an international conference on reduction of armaments "at the earliest possible date" were requested of President Harding in a petition signed by more than 20,000 clergymen of every faith and presented by a delegation from the Church Peace Union. It bore the indorsement of the National Catholic Welfare Council, the United Synagogues of America, the Central Conference of American Rabbis and the Federal Council of the Churches of Christ in America. Among the listed signers were Baptists, Methodists, Presbyterians, Lutherans, Episcopalians, Disciples of Christ, Congregationalists, Catholics, Unitarians, Friends and Rabbis.

Unlike Other Documents Dr. Nehemiah Boynton, of New York, chairman of the committee, told Mr. Harding that no other document of the same representative value in the disarmament movement ever had been prepared.

The President was quoted by members of the committee as saying that he hoped eventually to carry out their request, although the process could not be carried forward as rapidly as many people would like to see it. He also was quoted as saying that the United States must have a general agreement regarding armaments before she could afford to permit her own to be reduced to too low a point.

The petition presented by the committee attempted no argument for disarmament, its text being as follows:

Text Of Petition "We, the undersigned clergymen, urge the President and Congress of the United States to call a conference of the leading nations on reduction of armaments at the earliest possible date."

NEED ECONOMY RASMUSSEN SAYS

Gives Message to Farmers at Big Gathering in State College.

Practice of the utmost economy and thorough co-operation in both production and marketing were emphasized as immediate necessities to be observed by Pennsylvania farmers in order that they may obtain the best results from their efforts, in the message given by State Secretary of Agriculture Rasmussen to hundreds of agriculturists assembled at State College Wednesday night for the opening of the annual June Farmers' Week program at the College Agriculture School.

Farm agent Paul Hoffman, representing the Adams County Farm Bureau, is in attendance.

Secretary Rasmussen placed much stress on the fact that more farm produce is being shipped into Pennsylvania from other States than there should be, because of the lack of organized marketing methods in this State that are practiced elsewhere. Thousands of cars of apples, potatoes and vegetables come into Pennsylvania each year, when there is sufficient production for home-consumption, but the others are salable because of the first-class methods of grading and packing used by organized shippers.

New laws will assist the growers of the State to reach these standards with the co-operation of all, the Secretary believes. "Never in the history of the country have the prices of commodities affecting a great industry plunged so low in such a short time as have the prices of farm products," Secretary Rasmussen declared. "But agriculture is not the only industry that is suffering, and you farmers of Pennsylvania are not so badly off financially as your co-workers of the West and South. Yet you face many difficult economic problems to be solved through your own efforts in the efficient, economic production of such crops as our soil, climate and markets are best adapted to, and by a system of marketing and standardization and grading, which will give our product the same opportunity in our own and other markets as have products from other parts of the country and the world."

NEW BORDER OUTBREAK

San Antonio, Tex., June 23—Four detachments, comprising about 150 well armed men, have crossed the border into Mexico near Laredo and it is reported here, are intent on severing rail communication between Nuevo Laredo and Monterey, in an attack on Piedras Negras.

The Department of Justice here announced the crossing of the force. The department has the names of three former Carranzista leaders who are said to be in charge of the band, but the names were not made public. It is unofficially reported General Francisco Murguia is with the expedition.

PLANES COLLIDE 2 FLYERS DROWN

Fall Into Chesapeake After Machines Crash During Bombing Raid.

WAS PECULIAR ACCIDENT

Big TNT Bomb Dropped Near Wreckage Shortly After Crash. Difficult to Recover Bodies.

Washington, June 23—Two of the leading fliers of the Army Air Service, Captain Howard T. Douglas and Lieutenant Maril J. Plumb, were drowned in Chesapeake Bay yesterday after a collision of their planes in the course of a bombing raid directed at the hulk of the old battleship San Marcos off Tangier Island.

Reports received by the War Department from Langley Field, Va., said the accident was one of the most peculiar on record. Lieutenant Plumb, flying a fast single seat plane, was dropping bombs and Captain Douglas, in a similar machine, was observing the raid from above. Plumb's plane had just dropped a bomb and was climbing upward, as is the custom after releasing the weapon, when it struck Captain Douglas' machine, cutting off its tail.

Both Fall In Bay Both ships fell into the Bay and disappeared, together with their pilots, whose bodies had not been recovered last night, although search had been made by a number of army and navy craft, ordered to the scene after the accident.

Langley Field officials reported that soon after the planes fell another of the bombing planes dropped a bomb containing 300 pounds of TNT and that it fell near where the machines went down. It was evident, it was said, that the pilot of this machine, one of many participating in the attack on the San Marcos, had not seen the planes fall. The terrific explosion of this bomb, aviation officers said, probably would make more difficult the recovery of the bodies of the officers or the planes.

Captain Douglas, whose home was in Covina, Cal., was one of the best-known of Army fliers. He was attached to Air Service headquarters here and went by rail ahead of the Army aviators on their recent flight to Alaska to select landing fields and make all arrangements for them.

Lieutenant Plumb, whose home was in Fond du Lac, Wis., was recognized officers here said, as one of the Army's most expert fliers. When ordered to Langley Field to participate in the joint Army and Navy bombing tests, he flew from San Antonio in a big Caproni machine.

GIRL, 17, BIGAMIST

Admits She Has Three Husbands Living.

Pittsburgh, June 23—Mrs. Gertrude Brown Burkhardt Sylvester, 17, arraigned on a charge of bigamy, yesterday admitted she has three husbands living and has not been divorced from any of them. She refuses to take the situation seriously and smilingly explains that she has "traveled extensively, picking up a husband occasionally."

The overmarried young woman was arrested in her home. The warrant was signed by an attache of the juvenile court after it had been ascertained that she had two more husbands than law and custom allow.

The three husbands, according to the charges, are Samuel Brown, Franklin, Missouri; Frank Burkhardt, Jeffersonville, Indiana; and John Sylvester, Pittsburgh.

Following the hearing, Magistrate DeKane said he would turn the accused girl over to the juvenile court until an investigation could be made. In speaking of her experiences, Mrs. Sylvester said her first husband, Samuel Brown, who was 32 years old, was "too old and cranky." "My marriage to him in 1918 was forced. I told him I didn't love him and that I would leave him, and I did."

LOSES OPEN SHOP FIGHT

Chicago, June 23—The Pullman Company lost its open shop fight before the United States Railroad Labor Board when the board upheld the contention of union leaders that the company had not obeyed "the letter and spirit" of the transportation act when it conferred with its employees in mass meetings.

The board threw out the company's petition for a cut in the wages of its shop employees and instructed it to go back and meet the "duly elected representatives" of the employees.

The shop crafts and clerks in the Pullman works are involved in the case. The board's decision will delay action on a reduction in their wages for several weeks.

Under the transportation act, the company must meet the union leaders, and in the event they fail to reach a decision, file a petition before the Board and ask a new hearing.

FUTURE OF ROADS VERY DOUBTFUL

Warfield Tells Senate That Only Normal Conditions Will Bring Prosperity.

Washington, June 23—Study of the railroad problem was resumed yesterday by the Senate Interstate Commerce Committee with S. Daves Warfield, president of the National Association of Railroad Securities, as the chief witness.

"The question for the moment is," Mr. Warfield said, "can sufficient revenue be obtained from rates and fares that will be considered reasonable by the public and the shippers, and will these rates bear a relation to the price obtainable for the articles transported, that will not impede commerce; or will part of the money required to meet the necessities of transportation have to be supplied in the public interest by taxation?"

Would Mean U. S. Ownership The latter meant Government operation and eventual Government ownership and should be avoided by all means, the witness declared. He expressed the belief that with proper economies and the return of normal business conditions the railroads could earn a 6 per cent return and also reduce rates, adding that the recent increase in rates could not be held accountable for the contraction of the carriers' business.

Mr. Warfield thought organization of railroad officials as grouped in each of the four regions established by the Interstate Commerce Commission, and creation of central agency to supply equipment without profit and perform other services under supervision of the Interstate Commerce Commission would solve the problem. He submitted two bills for that purpose.

COUNTY TOWN TO HAVE PLAYGROUND

Committee of Arendtsville Men Effects Purchase of Three Acre Tract.

For the purpose of providing an outdoor playground and new baseball diamond for the people of Arendtsville and vicinity the Arendtsville Athletic Association has purchased a three acre tract of land from R. B. Myers.

This field which will be converted into a playground containing a baseball diamond is located a short distance outside the eastern borough limit along the Conewago creek. It cost the Athletic Association \$800.

It is the intention of the association to have not only a baseball diamond but tennis courts and swings at their playground which will open in several weeks. As soon as the owner gets his crop of hay off the field efforts will be made to line off the diamond and get it in shape for the games scheduled for July, especially the one with New Oxford July 23. If possible games will be played there before that time.

Dr. William E. Wolf is president of the association which effected the purchase of the new playground while Charles E. Raffensperger is vice president, P. S. Orner secretary and W. A. Raffensperger treasurer.

Dr. Wolf, Charles Raffensperger, J. A. Kane, C. H. Klepper, R. C. Walton, W. W. Wood and S. A. Skinner composed the committee which purchased the land. About half of the necessary \$800 has been raised and the remaining \$400 will be solicited for by the committee.

WAITS CHANCE TO ELOPE

Young Lochinvar Has License, But Girl Is Guarded.

Georgetown, Del., June 23—With a young Lochinvar waiting outside the door to carry off his fair Ellen, not on a romantic charger, but a modern one, Georgetown has all the elements for an O. Henry romance.

This young Lochinvar, Clyde M. Dameron, has no trusty broadsword, but a perfectly good marriage license permitting him to wed Elva M. Rodgers. Armed with this license he hovers hawkwise over the Rogers' castle, ready when her parents' guard relaxes to swoop down and carry off the fair Elva.

Dameron, whose native heath is Alexandria, Virginia, was here for a brief stay, when the "Blind God" smote him at the sight of Miss Elva.

Deep in love, he courted his lady a week, and fortune and she smiled upon him. Then came gloom. Like the famous Highlander's, his suit was denied by the cruel parents. The Rogers, father and mother, would have none of him.

Clyde knows not discouragement. He waits for the day and hour when the parents' vigilance relaxes. Then he will swoop down on the nest and it will be away to the nearest parson with the fair Elva.

THREE BOYS DROWN

Accident Occurred Wednesday Afternoon Near Westminster.

While playing on the banks of Winters stream near Westminster, Wednesday afternoon three little boys—William Witte, nine; Randall Witte, eight, brothers, and Lloyd McRay, nine—were drowned. Their bodies were recovered late Wednesday afternoon.

The boys had been seen playing together early in the afternoon, but when supper-time came and they did not show up a search was instituted. A man walking from Manchester, where he had been to the fire, passed along the stream and saw what he thought was a boy's head sticking out of the water.

It is not thought that the boys were in swimming, as all were fully clothed. The theory is that one of them slipped on the steep bank and into the water, and that the other two attempted to rescue him, when all were drowned.

The Witte boys are sons of Mr. and Mrs. William Witte and the McRay boy is the son of Sergt. and Mrs. James McRay, who have only recently moved here.

STORM SUBSIDES

Dallas, Tex., June 23—Reports received here from a greater part of the Texas coast last night indicated that the tropical storm of late last night and Wednesday had practically subsided in that area, but showed a tendency to go inland or be deflected eastward along the coast.

At Galveston the tide was rapidly receding and the barometer rising. Unofficial reports from Corpus Christi said that the weather had virtually cleared there and that no further disturbances were expected.

There had been no reports late last night of loss of life in the storm area. Six boats, including one large Shipping Board tanker, sank at Port Aransas early yesterday, according to information received from Corpus Christi.

GIVE REASONS FOR HEAVY HITTING

Ineffective Pitching, Lively Ball And Babe Ruth Cause Homers.

Here are reasons advanced by some of baseball's leaders in explaining the increased long distance hitting:

Tris Speaker, Manager of the world champion Cleveland Indians—"Ineffective pitching is the cause. They've barred the emery ball, the spitter and all the old deliveries. The pitchers haven't anything left but a glove and a prayer and they work the prayer overtime."

Ty Cobb, Manager of the Detroit Americans—"Baseball moves in cycles. We had the cycle of great base running, the cycle of great pitching and now we have the cycle of heavy hitting. It won't last long."

Johnny Evers, Manager of the Chicago Cubs—"It's the lively ball. The ball is so fast the players can't handle it and the force that used to be used in bunting now puts the ball out of the infield. The fast ball is crippling infielders and spoiling the game."

John Heydler, president of the National league—"Babe Ruth caused it. Babe made every one think it was easy to hit homers and now the batters swing their hardest. Everyone takes a full swing at the ball; result; more long hits than ever."

Kid Gleason, Manager of the Chicago White Sox—"It's partly the fast ball and partly the fact that the weather has been so bad in the central west that the western clubs' pitchers are not in condition. Most of the heavy hitting has been in the east by eastern clubs against western clubs' pitchers."

Frank Navin, president, Detroit American League club—"It's not the lively ball, for there is no such thing. The balls are all the same. The hitting is caused by the rules prohibiting a pitcher from doctoring the ball a little. He'd rub dirt on it to roughen it up a little, spit on it and do lots of other things to enable him to get a better grip. These things are barred now, and the pitchers are ineffective as a result."

What makes a tire go bad when it looks as sound as new?

A COUNTRY road! No garage or repair shop within call! A time perhaps when every minute counts! A blow-out comes! And you thought the tire was as sound as new!

What is it that causes such a tire to go bad? A few years ago four tire experts in the Thermoid Rubber Company decided to find out. They learned that the whole life of a tire hinges on the evenness with which the necessary strengthening materials are mixed with the pure rubber gum. If the resulting compound is filled with "lumpy" formations, the tire rapidly weakens and

"blows out." If the compound is blended evenly and smoothly, the result is greatly increased wear.

Knowing this, the Thermoid scientists then perfected Grolide—a rubber compound that reduces "lumpy" formations to a minimum—that eliminates premature tire troubles.

Grolide Compound is today used exclusively in the manufacture of Thermoid Tires.

You are invited to call and see these new tires for yourself—also the famous Grolide Compound Tubes.

CHOKED WIFE TO DEATH BOY SAYS

Mechanicsburg Man Refuses to Talk of Charge Until Hearing.

Behind bars in the Cumberland county jail, awaiting a preliminary hearing for the murder of his wife, Irene Henninger, February 12, Howard Henninger refused to talk when approached by newspapermen, it being averred by jail officials that he was feeling indisposed and unwilling to be interviewed.

The district attorney is unwilling to make any further statements relative to the case, desiring to withhold

all information until the date of the preliminary hearing. The date has not been determined.

A well-known county official has related a detailed story of the entire case. Some new light is thrown on phases of the murder by this statement of one who is in a position to know whereof he speaks. The recital follows, in substance:

Thought Woman Dead Longer
After the murder, on February 12, and immediately following the discovery of the body of Irene Henninger, Coroner Deardorf conducted an inquest at the home of Howard Henninger, Mechanicsburg. After the evidence had been heard, the coroner, he said, rendered the verdict that the woman had come to her death from a reason unknown to him.

The case was forgotten—dropped until two weeks ago. One closely allied with the coroner's jury came to Detective William Smith and voiced the opinion that in his mind both Howard Henninger and Percy Myers had lied at the inquest, and that he believed that the woman had been dead at least fifteen hours.

Detective Smith immediately went to the district attorney, and it was decided to make a thorough investigation of the case.

Smith made a number of trips to Mechanicsburg to secure information on which to begin a more careful investigation. He received that information from various sources, particularly from neighbors who related that the couple were quarreling almost continually.

Youth Weakens and Tells Tale
On June 20, he went to Mechanicsburg for the express purpose of interviewing Percy Myers. He went to the home of the boy's sister, and awaited his return. The boy came back shortly. Smith took him away in his automobile.

Smith made the situation clear to the youth, and told him that on different occasions and from various sources he had heard of statements made by him since the murder. At first the boy denied any knowledge of foul play. Weakening, he asked the detective if he would be held, and upon being assured he would not, poured out the terrible tale, saying that he had only held the baby and was not a party to the murder.

"I Killed Irene"
The substance of his remarks, according to this official, follows:

Between 11 and 12 on Sunday morning Myers was in bed in Henninger's home. He heard Howard and Irene Henninger in another room quarreling over a letter.

A scuffle followed. He insists that he did not actually witness the assault with the club. Howard opened the door of his bedroom and entered. Henninger's hands were besmeared with blood.

"Howard, what did you do?" "I killed Irene," answered the man. "Mind the baby while I wash and dress and clean up the blood."

Still Breathing
The boy arose, put on his trousers and saw the woman lying on the

floor, still breathing. Howard, he says, "got across her, grabbed her nightgown, placed his hand on her neck and choked the life out of her."

Mops Up Floor
The man went downstairs, procured hot water and mopped up the blood on the floor. He tore the gorseoaked wallpaper from the wall. He washed the blood off the door and removed all vestiges of the horrible deed.

Then he dressed the woman, carried her downstairs and placed her at the foot of the stairs. He built a fire and burned the blood-soaked bed clothing and the club with which he beat her over the head.

Through all this Percy Myers held the baby.

At 4:30 that afternoon he lowered the shades in the house and took the trolley for Harrisburg accompanied by young Myers. The two returned at 5:61 over the Cumberland Valley Railroad.

Calls in Neighbors
He opened the door of the house, found the body, and called to his neighbor, George Hale, that his wife had fallen and killed herself. Mr. and Mrs. Hale entered the house and found the body lying at the foot of the stairs in a pool of blood.

A doctor was called. He pronounced

the woman dead. Straightway the coroner's inquest was held.

WANTED TWO MILLION HUSBANDS

There are two million women in England today compelled to go through life unmarried because there are no men for them to marry!

What are they going to do with themselves?

Is the "right to motherhood" doctrine gaining ground? Or will these two million surplus women find happiness in a "transmuted" motherhood?

Ida Clyde Clarke, who has just returned from England, discusses the whole burning question in Pictorial Review for June.

Civilization's Greatest Achievement

Some Eskimos were brought down to Edmonton, Alberta, on official business.

They had never before been south of the Arctic Circle.

They had never seen a street, a town, a window, or a wooden door. A bed, a water tap, and an electric light produced completely new sensations. Street cars were unknown to them; telephones unheard of; trains not to be believed even when beheld.

They had never seen an automobile until someone took them riding in one. They had never set their eyes on an airplane until someone did his most daring stunts in one to thrill them. They had never even seen a movie!

But what do you suppose moved them most in the whole bag of tricks which civilization produced for their amusement and amazement?

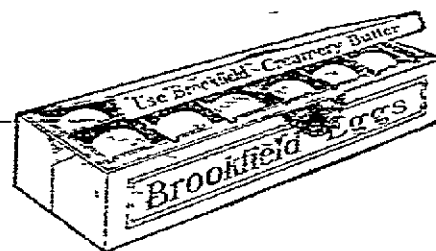

What seemed to them the greatest wonder of all?

The cold storage plants!

The White Man didn't always have to hunt and fish when he wanted to eat!

Here was civilization's greatest gift, its greatest benefaction.

This feature of civilization makes it possible for Swift & Company, in the season of over production, to store a supply of food for distribution in the season of scant, or non-production. Thus we are able to maintain for all a constant supply of such choice and necessary foods as Premium Milk-fed Chickens, Brookfield Butter and Brookfield Eggs

REFERENDUM VOTE FOR WAR LOSES

Federation of Labor Defeats Proposition to Take Power From Congress.

BIG UNIONS FAVORABLE

Warm Debate on Subject. Declare 80 Per Cent of People Opposed Entry in Recent War in Europe.

Denver, Col., June 24—The convention of the American Federation of Labor yesterday voted down a proposal calling for an amendment to the Constitution of the United States taking the power of declaring war from Congress and placing it in the hands of the people through referendum vote.

The declaration, which went to a roll-call after a stormy debate, also provides that "all those voting in favor of the declaration of war be compelled to take up the active prosecution of the same before those who voted against the declaration of the war."

Vote 21,742 To 14,530.

The official roll call showed that 21,742 votes were cast against the war referendum and 14,530 for it.

The United Mine Workers and the International Association of Machinists, with a total of 6993 votes, cast their ballots for the war referendum, as did the railway clerks. The Carpenters' Union, the second-largest in the Federation, with the majority of the building-trades organizations, opposed the proposal.

The railway carmen split their votes, 1498 for the referendum and 572 against. The painters also divided, 358 for the proposal and 775 against.

Organizations approving the referendum also included blacksmiths, Federal employees, postal clerks, ladies' garment workers, laundry workers, lithographers, rural letter-carriers, meat cutters and butcher workmen and scores of State Federations and local bodies.

Before the question went to a roll-call it had been defeated by a viva voce vote and by a division vote, the latter showing that 188 delegates were against the war referendum and 103 in favor of it.

Debate Long And Bitter

The debate that preceded the voting was long and bitter, those favoring the resolution declaring that the "ones who had to fight should have a voice in declaring war."

Louis M. Hermann of the New Jersey State Federation of Labor was declared out of order when he moved that only delegates of military age be allowed to vote.

In support of the war referendum, S. H. Gardner, of Cleburne, Texas, author of the resolution, declared 80 per cent of the people opposed entry of the United States into the World War.

Vice President James Duncan of Quincy, Mass., said the proposal was not "only an ordinary dream, but amounts to a nightmare." He asked what would be done if the country was attacked.

Opposing the war referendum, John Frey, of Cincinnati, said that as long as there are "highwayman and footpads among the nations of the world we must be prepared to meet war without waiting for a referendum."

For Control Of Packing Industry

The convention called upon Congress to enact legislation to control the meat-packing industry of the country.

Resolution designed to give indorsement to bonds of the State of North Dakota and to the Non-Partisan League was referred to the international unions with recommendations for favorable action within the constitutional limitations of those organizations.

TO HUNT FOR GHOSTS

Hundreds Attracted To Haunted House By Moanings.

Bristo, Va.—Tenn. June 24—An official police investigation has failed to oust Bristo's "ghost" and after more than a week's excitement, strange moanings and growlings continue to emanate from the "haunted house" in the residential district to which thousands have been attracted daily and nightly.

All sorts of theories have been advanced by the skeptics, but all efforts to expel the strange sounds have been futile.

The theory was advanced that rats were responsible, but after all rodents were eliminated from the building the moaning continued. Now building experts have decided to try their hand at solving the mystery and have started an investigation that will cover every inch of the room and walls in which the noise is heard.

Two inmates of the house already have suffered nervous breakdowns as a result of the excitement created by the haunts.

NO BEER CLAUSE WILL BE PASSED

Committee Favors It. Volstead Amendment is Adopted by Unanimous Vote.

Washington, June 24—The threatened tangle over anti-beer legislation was cleared away yesterday by the House Judiciary Committee, which unanimously reported the Willis-Campbell bill designed to prevent promulgation of beer-for-the-sick regulations by the Bureau of Internal Revenue.

Machinery was immediately set in motion for its early passage by the House, probably on Monday. As the measure embraces only the uncontroverted sections of the Volstead supplement bill, against which protests were made by industries permitted to use alcohol, practically all opposition was removed and leaders said the House would pass it in an hour and by an overwhelming vote.

The committee adopted an amendment by Chairman Volstead to meet a situation created by a recent decision of the Supreme Court which held in effect that revenue laws applicable to the manufacture taxation and traffic in intoxicating liquors for beverage purposes were no longer in force.

The amendment would specifically continue in force all such legislation, both as to beverage and non-beverage liquids. Prosecution under an internal revenue law, however, would bar prosecution under any section of the Volstead act for the same offense.

CHARGE BANKER WITH SHORTAGE

Lancaster State Bank Closes Doors. Treasurer Alleged to Have Speculated.

Lancaster, Pa., June 24—The Agricultural Trust Company of this city was closed yesterday by the State Department of Banking. Later in the day Charles D. Zell, treasurer of the company, was arrested and held in default of \$50,000 bail on charges of embezzlement and larceny.

A statement issued by Peter G. Cameron, Deputy State Commissioner of Banking, said:

"Investigation has disclosed that the books and records of the bank, due to the manipulations and speculations of the treasurer, are in a lamentable condition. The investigation revealed that the treasurer has for some time been speculating through Philadelphia brokers and using funds of the company for that purpose."

"The amount of the shortage has not been given," the Deputy Commissioner stated. "Owing to the conduct of the affairs of the company by the treasurer the reserve has fallen below legal requirements and the readily negotiable assets have been largely pledged in efforts to maintain such legal reserve."

"While investigation by State officers show the capital is considerably impaired, unless further losses are disclosed, they believe the depositors will be paid in full."

The assets of the company are said to be about \$2,500,000. The capital stock is \$250,000. The trust company's patronage was largely from the rural sections.

LEWIS RADICAL POLICY

Nationalization of Mines of His Major Issues.

Denver, June 24—Government ownership of the railroad and nationalization of the mines are the two major issues on which John L. Lewis hopes to win the presidency of the American Federation of Labor, it was learned yesterday. On the other hand, President Samuel Gompers was striving for election upon his record of the past forty-one years as a leader in the American labor movement.

In his first public statement as to his platform, Mr. Lewis, president of the United Mine Workers, said:

Lewis Announces Platform

"I stand for government ownership of the railroads and nationalization of the mines and other progressive legislation which will give the workers and the toilers of America the freedom of justice in industry they deserve."

"I stand for health insurance, old age pension and unemployment insurance—all progressive measures for the relief of the working masses. The enactment of laws covering these subjects would give the workers adequate protection and reward for the service that they have rendered industry."

Gompers Is Committed

While President Gompers issued no statement, supporters in his behalf declared that "his record in the American labor movement during the past forty-one years would reflect him to the presidency."

President Gompers has already gone on record against government ownership, unemployment insurance, health insurance and other similar proposed legislative measures.

WOULD PLACE TAX AHEAD OF TARIFF

President Harding to Speed Up Legislation Along These Lines.

CONFERS WITH FORDNEY

Tariff Measures To Be Ready Next Week. Senators Confident Bills Will Pass.

Washington, June 24—President Harding took a hand in the legislative program yesterday in an effort to speed up the enactment of tariff and tax legislation by calling Chairman Fordney of the House Ways and Means Committee to the White House to discuss the possibilities of early passage of such laws.

Meanwhile the suggestion was renewed in the Senate by Senator Watson of Indiana, a Republican member of the Finance Committee, that tax revision be placed ahead of tariff legislation. The question gave the leaders some trouble early in the extra session, and its revival today made it appear that another effort would be attempted to subordinate tariff to taxation in the legislative program.

Tariff Ready Next Week

Mr. Fordney informed the President that the Republican committee draft of the permanent Tariff Bill would be ready by Monday or Tuesday for consideration by the full committee. He did not indicate how much time would be required for consideration of the bill by the whole committee, although he explained that a caucus of House Republicans would be held before the bill is submitted formally.

Senator Watson's suggestion led to floor statements by a half-dozen Republican and Democratic Senators that they would support his proposal.

"The country is in the midst of an intense economic reaction from the war," Senator Watson said. "This is not the fault of legislation. The country can rest assured that both the tariff and revenue bills will pass; but my own thought is that we cannot revive business until we first repeal the excess profits taxes and the higher surtaxes upon income."

"They are depressive influences on business, even though they are not to be paid, because the business depression will reduce their yield to the vanishing point. The situation condemns labor to idleness and the train of economic woes."

"Why look so fiercely at us Democrats?" Senator Pomerene of Ohio, inquired.

"I was not looking fiercely, but pitying," Senator Watson retorted.

Not Blaming Anybody

"I am not criticising or blaming anybody. We can expect the general tariff bill to be reported to the House within 10 days and to be enacted within three weeks after that. It will take some time for the tariff bill to get through the Senate Finance Committee—four or five weeks."

"Within that period we may expect the House to pass the revenue bill, and that bill I hope to see taken up and passed in the Senate before the tariff bill."

"We can formulate a tariff bill, but with the present disturbance of international exchange and the disarrangement of economic life all over the globe, conditions inevitably will make some details of any bill we bring out obsolete within six months. On the other hand, if we pass the revenue law, business will have some reassurance, it will know what its burdens are to be, the direct burden it has to carry. Then we can take up the tariff and the other questions which perplex us."

EDISON A MEDIUM

New York, June 24—The Edison brain, which evolved numerous inventions and a knockout questionnaire, got its instruction out of the immaterial—realm of the mind and the spirit—according to J. F. Streckenreiter, of Brooklyn, president of the General Assembly of Spiritualists, which opens a three-day convention here today.

"Thomas A. Edison is a spirit medium of high power," Mr. Streckenreiter said yesterday, "although he may never put himself on record as accepting the spiritualistic philosophy. He has been chosen by the forces in control to bear the spirit message."

CROWD THREATENS NURSE ABDUCTOR

Girl in Serious Condition. Mob Cries "String Him Up."

Scranton, Pa., June 24—Miss Mary Murphy, the pretty 20-year-old nurse, who was abducted from her home in Carbondale Monday night and held a prisoner for 24 hours on the East Mountain, is in a serious condition, and physicians have forbidden the police questioning her.

Thomas McMyne, 21, rejected suitor of the girl, is under arrest charged with kidnapping, and Jacob Pecho, an auto dealer, is held as an accomplice.

McMyne was removed to the county prison in this city because of the bitter feeling against him in Carbondale. Cries of "Lynch him," and "String him up," came from a crowd of several hundred persons as McMyne was being taken to headquarters.

The authorities declare McMyne has made a confession in which he says he abducted Miss Murphy because she refused to marry him. He planned the abduction last week and engaged Pecho to send a fake telephone call to the nurse, saying that Dr. W. H. Loftus wanted her on an emergency case and that an auto would call for her. Pecho got the nurse at her home and in a mile picked up McMyne. When Pecho heard the woman screaming and fighting he refused to drive the couple any further. McMyne then left the machine and dragged the girl with him. They went up the mountain for ten miles and slept in a hut all Monday night.

Miss Murphy related a pathetic story of her struggles in the woods with McMyne. According to the attending physicians, McMyne pleaded with her to marry him, and when she declined he threatened to kill her and dragged her through the woods.

After a tramp down the mountain he left the girl lying in the woods near her home and then went to his own home. The McMyne residence was surrounded and there was no chance of his escaping. "I'm the man you want; I don't know what made me do it," said McMyne to the police as he was led through the streets before the jeering crowd. McMyne will be arraigned on a charge of kidnapping as soon as Miss Murphy's condition permits.

UNIT PLAN FOR BRIDGE

Work on State Memorial Structure Delay Until Fall.

Governor William C. Sproul and his colleagues on the State Board of Public Grounds and Buildings will consider construction of the Soldiers' and Sailors' Memorial Bridge on the unit plan, as authorized by the Act of 1921 when the Board resumes sessions in the fall. The action of the Board in deferring action for the present leaves the way open for action in the fall if conditions are deemed proper and the Governor said if things were favorable, a contract might be let and work started next spring.

When the subject of the bridge came up, the members voted to defer action, but before leaving the city the Governor said it would be further considered in the autumn. The Smith bridge building bill the Governor remarked some time ago authorized construction by units so that if conditions were not favorable for the whole contract the foundations, approaches or pylons could be taken up.

WAS SHERIDAN'S ESCORT

Civil War Veteran Dies Suddenly in Waynesboro.

Waynesboro, Pa., June 24—J. Francis Foreman, an orderly for General Sheridan when he made his famous ride in 1864 in the Shenandoah Valley, and believed to be the last survivor of Sherman's personal escort, is dead here after a few hours' illness, aged 78 years.

He is survived by three sons, a brother and six grandchildren. His wife died two years ago. For many years after the war Mr. Foreman conducted a painting contractor's business, and later was in the paint department at Frick Company. He belonged to the G. A. R. and the Methodist Church.

SEARCH FOR TEN SHIPS

Mysteries As Wierd As Fiction of
Conrad.

Washington, June 23—Mysteries
of the sea, as wierd and apparently as
unsolvable as any of Jules Verne's or
Joseph Conrad's dashing fiction, now
confront government authorities in
their efforts to explain the strange
disappearance of at least ten ships
within the last year.

Various reasons have been sug-
gested: Pirates, mutinous crews,
floating mines, but one guess seems
as good as another. A veil of con-
fusion and conjecture, through
which a single unsigned and cryptic
bottle message has come, baffles all at-
tempts to make the Atlantic divulge
its secrets.

The State Department and the De-
partment of Commerce hold to the
theory that pirates are at work and
the vessels reported missing under
suspicious circumstances have been
captured and their crews murdered or
pressed into service.

So positive is the State Depart-
ment's view in this direction that it
has directed a world-wide lookout
of ships and their crews that have
mysteriously disappeared after hav-

ing been sighted or having wireless-
ed for help. The department officially
announced yesterday that in its opin-
ion there was foul play and looting
connected with the wrecking of the
American schooner Carol Deering on
Diamond Shoals in January.

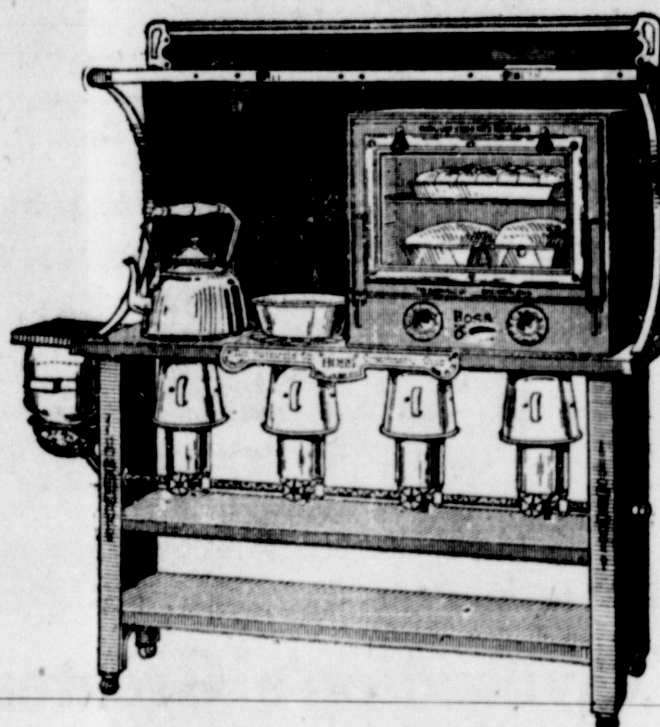

BENNETT FIRM LOW BIDDERS

Decline in Road Building Figures
Marks Opening of Bids.

M. Bennett and Sons, of Indiana,
the firm which built the first road in
the county on the Harrisburg road,
was the low bidder for an eight-mile
job in Tioga county, it was learned
Wednesday when bids were opened at
office of the State Highway Depart-
ment in Harrisburg. The bid of the
Bennett firm was \$517,955.75.

Marked declines featured the bids
made for highway construction when
the bids for the construction of forty
four miles contained in sixteen pro-
jects were opened as compared with
figures of six months and more ago.
one of the most noticeable being in
Dallastown, York county, where there
was a drop of \$30,000. In all eighty
five bids were received. The bids were
regarded as satisfactory generally.

Shirt Economy

People think in terms of economy nowadays. So
in buying shirts economy means quite a lot. If you
picked these shirts for wearing quality alone they
would be very economical. But they give you a lot
more—choice new patterns, unusual colorings—every-
thing is done from start to finish that is necessary to
make good shirts.

HOW WOULD YOU LIKE TO BE ALWAYS

BLAMED FOR EVERYTHING?

How would it suit you to be the prize goat of the Smithville Orphanage,
the "firstguess" of everybody around the place whenever anything went
wrong? How would YOU like to be known as a "bad boy" when you
really and truly weren't any such thing? Would you, mad-like, beat it
from such a place?

OUR HERO DID!

And then what?

Only more trouble. A kid must eat. Our hero ate—of food that was not
his. ZIP—THE JUVENILE COURT! Did the judge send him up for
life?

No doubt what has gone before fully prepares you even for such hard-
luck news! But the judge wasn't that kind.

You'd better go and see this judge—and the boy—and, oh yes! a girl in

Reduce Those Danger- ous Swollen Veins

Physicians are prescribing and hos-
pitals are using a new and harmless,
yet very powerful germicide that not
only causes enlarged or varicose
veins and bunches to become normal,
but also reduces goiter, enlarged
glands and wens.

Ask any first class druggist for an
original two-ounce bottle of Moore's
Emerald Oil (full strength) and re-
fuse to accept anything in its place.
It is such a highly concentrated pre-
paration that two ounces lasts a long
time and furthermore if this wonder-
ful discovery does not produce the
results anticipated, you can have the
price refunded.

It is not wise for anyone to allow
swollen veins to keep on enlarging.
Often they burst and cause weeks of
pain, suffering and loss of employ-
ment. Start the Emerald Oil treat-
ment as directions advise and im-
provement will begin at once. Gen-
erous sample on receipt of 15 cents,
silver or stamps. International Lab-
oratories, Rochester, N. Y. Peoples
Drug Store and Shuman's Medicine
Store can supply you.

GIVE REASONS FOR HEAVY HITTING

Ineffective Pitching, Lively Ball And Babe Ruth Cause Homers.

Here are reasons advanced by some of baseball's leaders in explaining the increased long distance hitting:
Tris Speaker, Manager of the world champion Cleveland Indians—"Ineffective pitching is the cause. They've barred the emery ball, the spitter and all the old deliveries. The pitchers haven't anything left but a glove and a prayer and they work the prayer overtime."
Ty Cobb, Manager of the Detroit Americans—"Baseball moves in cycles. We had the cycle of great base running, the cycle of great pitching and now we have the cycle of heavy hitting. It won't last long."
Johnny Evers, Manager of the Chicago Cubs—"It's the lively ball. The ball is so fast the players can't handle it and the force that used to be used in bunting now puts the ball out of the infield. The fast ball is crippling infielders and spoiling the game."
John Heydler, president of the National league—"Babe Ruth caused it. Babe made every one think it was easy to hit homers and now the batters swing their hardest. Everyone takes a full swing at the ball; result, more long hits than ever."
Kid Gleason, Manager of the Chicago White Sox—"It's partly the fast ball and partly the fact that the weather has been so bad in the central west that the western clubs' pitchers are not in condition. Most of the heavy hitting has been in the east by eastern clubs against western clubs' pitchers."

Frank Navin, president, Detroit American League club—"It's not the lively ball, for there is no such thing. The balls are all the same. The hitting is caused by the rules prohibiting a pitcher from doctoring the ball a little. He'd rub dirt on it to roughen it up a little, spit on it and do lots of other things to enable him to get a better grip. These things are barred now, and the pitchers are ineffective as a result."

TWO TEAMS PLAY AWAY

Arcadians At Fairfield And Independants At Littlestown.

Two Gettysburg ball teams will play away from home Saturday. The remnants of the 1920 Independants will

play Littlestown at Littlestown while the Arcadian Club will meet Fairfield at Fairfield.

Arnor and Peters, former High School battery, will work against Fairfield while either Sheely or Palmer is scheduled to hurl against Littlestown. The line up of the 1921 Independants is Myers 1b, Scott 2b, Stover ss, Yingling 3b, Cromer cf, Sadler lf, Bream rf, Weikert c, Sheely of Palmer p.

What makes a tire go bad when it looks as sound as new?

A COUNTRY road? No garage or repair shop within call? A time perhaps when every minute counts! A blow-out comes! And you thought the tire was as sound as new!
What is it that causes such a tire to go bad? A few years ago four tire experts in the Thermoid Rubber Company decided to find out. They learned that the whole life of a tire hinges on the evenness with which the necessary strengthening materials are mixed with the pure rubber gum. If the resulting compound is filled with "lumpy" formations, the tire rapidly weakens and "blows out." If the compound is bleeded evenly and smoothly, the result is greatly increased wear.
Knowing this, the Thermoid scientists then perfected Crolide—a rubber compound that reduces "lumpy" formations to a minimum—that eliminates premature tire troubles.
Crolide Compound is today used exclusively in the manufacture of Thermoid Tires.
You are invited to call and see these new tires for yourself—also the famous Crolide Compound Tubes.

ANOTHER FOR HANOVER

Bunching five of their seven hits in the sixth inning of Thursday's game Hanover scored four runs and defeated Frederick, 5-3. Neptune, Frederick shortstop, was the leading batter of the day with three blows to his credit.

Batteries: Storm and Goff for Hanover; Shuttleworth and Stover for Frederick.

MAROONS DROP DEEPER

Although two of their players, Saterle and Stayler, hit home runs Thursday evening, Chambersburg was noised out by Waynesboro, 4-3. After two were out in the fifth Waynesboro bunched two triples and a double off Gramley, two runs crossing.

Batteries: Winslow and Fitzgerald for Waynesboro; Gramley and Stayler for Chambersburg.

THEIR REFENSE CRACKED

Hagerstown's defense cracked in the fifth and sixth innings Thursday, Martinsburg scoring four runs, enough to win. Pedone and Quandt each had three hits for Hagerstown. Batteries: Lynch and Dastling for Martinsburg; Berry and Russell for Hagerstown.

MENCHIEY COMES BACK

"Porty" Menchey, well-known High School and College hurler, who, in 1919, won every game he pitched for College, and last year suffered a slump, is pitching good ball for Hantington. His work this year looks like a real come-back.
Recently he pitched ten innings of a fourteen inning game won by Hantington from Clearfield. Although a trifle wild, he struck-out nine men in the ten innings he worked.

three pounds of laundry soap or fish oil soap, dissolving the soap, of course, before adding. Be very thorough in making the application and be sure to apply the spray material to the under side of the leaves, as that is where the aphid lives.

The potato aphid is inconspicuous, so is liable to be overlooked unless careful search is made. Unless found and destroyed when first appearing on the potato plants they will multiply with such rapidity that in two weeks time the crop will be seriously damaged, if not destroyed, as many growers learned to their sorrow several years ago when many thousands of dollars damage was done to the potato crop.

The potato aphid is not only important from the destruction caused to the plants, but is also known to transmit two of the most troublesome potato diseases, leaf roll and mosaic. Potatoes which are to be used for seed should for this reason be kept free from aphid infestation.

ABDUCTS GIRL HE WOULD MARRY

Scranton Man Carries Her to Mountains. Searching Parties Out.

Scranton, Pa., June 23—Abducted by a suitor whom she had rejected, Miss Mary Murphy, 20, a trained nurse, is being held a prisoner somewhere in the mountains between Carbondale and Honesdale, while State Troopers, city police and several troops of Boy Scouts are searching for her.

For fifteen hours, the searchers have scoured the fields and the thickly wooded hills for many miles in all directions from here, but so far they have found no trace of the girl and Thomas McMynn, 21, who is believed to have dragged her off with him to some spot inaccessible and far removed from habitations. McMynn was arrested last week on the charge of annoying the nurse after she had refused to wed him.

The last word of the girl before she disappeared in the mountains came from an alien family living on the East mountain near Simpson. These people, through interpreters, said they were awakened early Tuesday morning by screams, and saw a man and a woman fighting as they proceeded along the road. The man was driving the woman ahead of him, the foreigners said, by threatening her with death if she halted or turned back.

According to information collected by the police, Miss Murphy was visiting at the home of her sister, Mrs. Thomas Thompson, when a telephone message came asking her to take a case for a Carbondale physician, and that an automobile would call for her. In a short time, the automobile arrived and Miss Murphy departed in it, but her brother-in-law, who was suspicious of the message and the assignment, followed her in another machine for a short distance.

FIND NEW TEST FOR EINSTEIN THEORY

Chicago Professor Announces Series of Untried Experiments in Relativity.

Chicago, June 22—The Einstein theory of relativity is to be subjected to a new practical test by Prof. Albert A. Michelson of the University of Chicago, whose discoveries led to its formulation. The forthcoming experiment is expected either to lend substantial support to the theory or to disprove it.

Prof. Michelson, who is now lecturing at the University of Paris, is expected back about July 1st and the test is planned within the next year. It will be conducted under the auspices of the University of Chicago, either in this city or in some mountainous country.

The experiment has been undertaken at the request of Dr. Ludwick Silberstein of the Eastman Research Laboratories at Rochester, N. Y., who has worked out its terms. It is said that Professor Albert Einstein on his recent visit to the United States expressed his belief in the efficacy of the experiment.

Just what it is planned to do to determine whether Einstein's theory holds or not was explained here today by Prof. Robert A. Millikan, colleague of Prof. Michelson in the department of physics of the University of Chi-

cago. Divesting the subject of technical details, Prof. Millikan said:

"This is, as a matter of fact, an experiment suggested by Prof. Michelson 20 years ago as one way of testing whether or not it is possible to detect a motion of the earth with respect to the medium which carries light.

"All efforts thus far made to detect by means of light effects the motion of any material body with respect to the ether have failed. But all preceding attempts have been made with the idea of trying to measure the linear motion through space of a point on the earth with respect to the ether surrounding that point, and the results thus far obtained have been wholly negative.

REFORMED CHURCH REUNION JULY 21

Arrangements Completed For Annual Outing at Pen Mar.

Details of the 23rd annual reunion of the Reformed Church of Southern Pennsylvania. Maryland, the District of Columbia, Virginia and West Virginia to be held at Pen Mar, have been completed. It was announced by Paul F. Schminke, York, secretary of the reunion committee.

The outing, which usually attracts between 3,000 and 4,000 members of the Reformed Church from these districts, will be held on Thursday, July 21. Special features have been added to this year's program.

Special trains to carry the excursionists to the mountain resort will be operated through Gettysburg. Many people will make the trip by automobile, it is expected.

The program for the day's activities will be entered upon at 1.30 o'clock. The principal speaker this year will be the Rev. Dr. Edwin Howard Romig, pastor of St. Andrew's Reformed Church, of Reading. Music is to be furnished by the quartette choir of St. John's Reformed Church, of Harrisburg, of which the Rev. Clayton H. Ranch is the pastor.

The committee which has charge of arrangements for the reunion is composed of Emory L. Coblenz, of Frederick, president; Ephraim Cornman, of Washington, D. C., vice president; Paul F. Schminke, York, secretary; and Samuel S. Brenner, of Mechanicsburg, treasurer. The directors of the Reformed Church Reunion association are Charles E. Hintzelman, of Chambersburg; the Rev. John L. Barnhart, of Baltimore; W. C. Bierly, of Frederick; H. T. Weaver, of Gettysburg; Howard E. Bair, of Hanover; the Rev. Clayton E. Ranch, of Harrisburg; Harry Brinkle, of Hagerstown, and the Rev. Paul D. Yoeder, of Jefferson, York county.

Men Who Fired On Legion Begin Long Sentences.

Walla Walla, Wash., June 23—Seven men, former I. W. W.'s convicted of murder in connection with the armistice day shooting at Centralia in 1919, in which several American Legion members were killed, were brought to the State Penitentiary under heavy guard on Tuesday. They are under sentence of from 25 to 40 years. They were handcuffed and chained together.

They were brought here from Montezano, where their trials were held more than a year ago. The State Supreme Court recently affirmed their conviction.

A Scot was taken out of the train at Wilkesden for being drunk and disorderly. He had got into bad company, he said. "Bad company—how?" the Magistrate asked. "Well, sir, ye see, I had two bottles o' speerits in a bag an' a' the ither men in ma compairtment wis tee-total."

DIES OF INJURIES

Pittsburgh, June 23—Gerge W. Richards, 56, of Duquesne, former sheriff of Allegheny county, died in the West Penna Hospital Tuesday as a result of an automobile accident on the Chambersburg road last April.

The former sheriff, with James Hart, was enroute to Harrisburg when a wheel of the machine broke, causing the car to crash head on into an iron pole along the roadside. Mr. Richards was thrown against the pole and hurt internally.

Mr. Richards served in the Pennsylvania Legislature from 1908 to 1912, when he was elected sheriff.

Certificates of registration as pharmacists were granted to 35 and certificates as assistants were granted to 12.

(Medical Advertising) KIDNEY AND BLADDER TROUBLES CONQUERED OR MONEY BACK

For 40 years, said Dr. Carey, I have been prescribing Marshroot for kidney and bladder sickness and now that I have retired from active practice I have made arrangements with leading druggists to dispense this wonderful prescription at a moderate price, on the money back if dissatisfied plan.

Beware of kidney disease—thousands die of it every year who ought to be enjoying the blessings of life and health. Watch the symptoms. If you have specks floating before the eyes, puffy eyes, clammy feet or moist palms, backache or sideache, you ought to get a bottle of Dr. Carey's Marshroot right away.

It has wonderfully benefited tens of thousands of cases of kidney and bladder troubles and is the medicine you can always depend upon. Results are guaranteed.

NOTE.—Dr. Daniel G. Carey was a practicing physician for many years and his great Prescription, Marshroot aided thousands of sufferers from kidney and bladder troubles. Hereafter you can always get this effective Prescription at Peoples Drug Store and all reliable pharmacists the country over. Keep in mind the name, Dr. Carey's Marshroot prescription No. 777. No other medicine can take its place.

Tillie Clinger says the reason they call her stuck up at her boarding house is because she left the table when the star boarder crumbled crackers in his soup and ate it with a fork.
